

A close-up, artistic photograph of a saxophone, focusing on the intricate details of its keys and mechanisms. The instrument is highly reflective, showing bright highlights and deep shadows. A prominent key in the center features a circular logo with a stylized, ornate monogram. The background is dark and out of focus, emphasizing the metallic texture and complex structure of the instrument.

BUFFET CRAMPON & SAXOPHONE

Buffet Crampon is firmly-fixed, through its history and its name, in the tradition of the manufacture of top of the range wind instruments. Since 1825 the brand has developed around a know-how of exceptional instrument manufacture. This heritage remains the guarantee of recognition of our products “Made in France” and “Made in Germany”.

Thus for nearly 200 years, musicians have continued to find artistic excellence and the passion of music with Buffet Crampon instruments. In a collusive and intuitive dialogue with the most renowned artists, the brand’s ambition is to combine tradition with modernity, know-how with creation, history with innovation, in order to offer wind instruments of reference.

Buffet Crampon continues its quest for excellence, regularly applying for new patents, and is currently proposing a complete line of saxophones that will respond to the demands of both professionals and amateurs:

- Senzo, professional range: alto
- “400 Series”, advanced range : alto, tenor et baritone
- “200 Series”, student range: alto
- “100 Series”, student range: alto and tenor

Senzo

PROFESSIONAL SAXOPHONE

Senzo announces the rebirth of Buffet Crampon's professional saxophones. Senzo, which means ancestor in Japanese, combines Buffet Crampon's tradition of musical excellence with a sensual and modern approach. Inspired by the legendary SuperDynaction and S1 models, this new saxophone retains the brand's distinctive round, sensual and emotional sound with major improvements.

This instrument is unique in its ability to provide ease of play in executing the most complex intervals and is free-blowing in every register. Even the most demanding saxophone players will find the lower register surprisingly easy. From velvety low to impressively bright high notes, this model's sound range is infinite, allowing the player to express the most varied of musical styles.

Intonation was a particular focus in the quest for perfection and Internal volumes were reviewed in order to provide an extended and enhanced range of tuned sound (438-444Hz).

Special attention has been given to the neck's bore to increase the flexibility of play throughout the saxophone's register. An optional bore with increased projection and a lighter timbre is also available along with a silver or gold finish. A magnificent hand-made floral engraving brings out the pure copper used in manufacturing the instrument's body.

Senzo, destined to be the new standard in professional alto saxophones, is an essential step towards the renewal of Buffet Crampon saxophones. It faithfully reflects the combination of French musical instrument making know-how with state of the art technology to meet today's musical demands.
