Strings Handmade in Germany

Four characters in perfect harmony:

## *Evah Pirazzi Gold Cello Strings*

Clear, full, with character: are the words used to best describe the elegant sound of the new Evah Pirazzi Gold Cello Strings. These new steel strings provide a variety of overtones with great projection – without any metallic sharpness. Our new Evah Pirazzi Gold Cello Strings are extremely responsive and react quickly over the entire dynamic range; even with very gentle bow pressure. Also with their reduced playing-in time the instrument achieves its full sound spectrum in no time.

Each Evah Pirazzi Gold Cello string has its own individual character and at the same time their interplay generates a wonderfully harmonious set. Beginning with a smooth and rich spectrum of sound colors, the A-string has a warm and silvery sound, that will easily satisfy the expectations of soloists. Charm, brilliance, and lightness are the sound characteristics of the D-string. The seamless transition to the G-string adds a further nuance that can be heard: The sound becomes very grand and develops an impressive radiance – even straight after stringing. Vibrant and resonant the C-string was designed to provide the player with a focused direct sound that will inspire and at the same time bring this set to its powerful completion.

In summary, the new Evah Pirazzi Gold Cello Strings offer versatile ways of expression thanks to the following features:

- *playing-in time is reduced to a minimum*
- *clear, full and focused sound with character*
- *no metallic sharpness*
- *excellent responsiveness, from pp to ff*
- *extremely durable*

The A- and D-strings have a high-tensile steel core and are wound with a precision chrome steel flat wire, while the G- and C-strings have a specially designed steel rope core with a top-quality tungsten winding. This combination is rich in overtones and gives the set a powerful, distinctively focused sound especially on the G- and C-strings.
