

GENEVA INSTRUMENTS are proud to present the new world class...

Symphony

EUPHONIUM

The beautiful new Symphony Euphonium from Geneva is the epitome of pure sound and should add colour and shading to a brass or wind band at any level. It encompasses all the requirements of the task and much more besides. It brings with it style, class and an air of authority both in looks and sound quality. It has depth, warmth and fullness to the tone whilst being superb at assisting in projection, clarity of production and resonance when required. The Symphony Euphonium will serve and enhance playing for all. It is a piece of workmanship that can be used by the developing to the accomplished player - whatever the level.
