Why choose JP?

JP Musical Instruments has long been regarded as a specialist musical instrument supplier designing, manufacturing and distributing a wide range of brass & woodwind instruments.

John Packer started his woodwind and brass business 40 years ago. From humble beginnings with a small woodwind repair shop in Taunton, Somerset, his reputation quickly grew. John was well known for his expertise and great customer service in the UK and across the world. Both a musician and trained oboe maker and repairer, he has since consulted on the design of instruments for a number of major manufacturers including Yamaha, Boosey & Hawkes and Schreiber. John has used his experience to create a multitude of features on the JP range of instruments which are now popular across the globe. This process is ongoing with regular trips to the factory to work with the technicians actually on the production line.

Remember, all instruments bearing the JP mark are covered by our comprehensive 2 year warranty.

At JP Musical Instruments our aim is always to be at the forefront of customer service. We are proud of the quality of our products and their long term durability however which is why all our products are covered by a fully comprehensive 2 year repair or replacement service.

The JP Musical Instruments 2 year Warranty pledges that all products should be free from manufacturing defects for 24 months from the date of purchase. If not we promise to either repair or replace without question.

Terms & Conditions apply. Please visit www.jpmusicalinstruments.com/warranty for more detail.

Professional Collaborations

JP Musical Instruments has formed special collaborations with four prestigious makers to develop an exclusive range of JP instruments.

All our collaborators are synonymous with professional levels of design and performance; widely respected within the brass musical instrument community. Many artists at the top of their profession have chosen these top manufacturers; Carol Jarvis, Michael Dease, Brett Baker and Robb Tooley.... amongst many others.

Michael Rath

Michael Rath
ENGLAND

We have worked very closely with Michael to create a unique range of JP Rath Trombones and French Horns that draw on Rath's expertise and professional knowledge.

Paul Riggett

Sterling
Musical Instruments

The JP Sterling range all feature a high specification including full construction from high grade 80:20 brass and include a Sterling design leadpipe ensuring a superior sound.

Dr Richard Smith

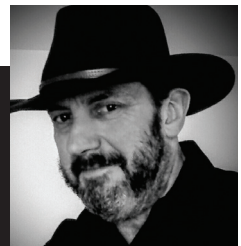

JP Smith-Watkins models feature an exclusively designed Smith-Watkins leadpipe and benefit from a wealth of fine-tuning due to the expansive knowledge of Dr Smith and his team.

Andy Taylor

Taylor

Taylor Trumpets may be a relative newcomer to the trumpet history books, but the name is already synonymous with excellence in the custom trumpet category.

JP251SW B^b Trumpet

Used both in schools and on stage in professional shows (Seal 2009/10 European Tour & Jools Holland's Rhythm and Blues Orchestra), the JP251SW's versatility enables players at all levels access to a high performing instrument. An exclusive and specially designed Smith-Watkins leadpipe was created for the JP251SW driving excellent articulation and sound projection.

Key: B^b

Bore: Medium Large (.459")

Bell: High Grade 80:20 brass

Waterkeys: 2

Additional features: Exclusive Smith-Watkins Design Leadpipe

Marching Baritone Horn

JP2053 Marching Baritone Horn

The JP2053 has a darker tone than a trombone yet brighter than a euphonium and will add a very rich sound to your band. Ideally balanced making it a great addition to the marching band.

Key: B^b

Bore: .571"

Bell: 10"

Valves: Stainless Steel Valves

Finishes: Lacquer, Silverplate

Marching Euphonium

JP2054 Marching Euphonium

The JP2054 offers the full sound of a traditional euphonium in a forward facing style, perfect for the field. Robustly made and well balanced, it features typical JP build quality and materials.

Key: B^b

Bore: .571"

Bell: 11"

Valves: Stainless Steel Valves

Finishes: Lacquer, Silverplate

Sousaphone

JP2057 Sousaphone

The JP2057 Sousaphone is the perfect instrument for the field. It fits incredibly well within any marching band, Trad Jazz band and even early big band. With complete ease, the sousaphone can turn from a mellow bass instrument, to a roaring forward facing monster, suitable to blast any bass line that is needed.

Key: BB^b

Bore: .687"

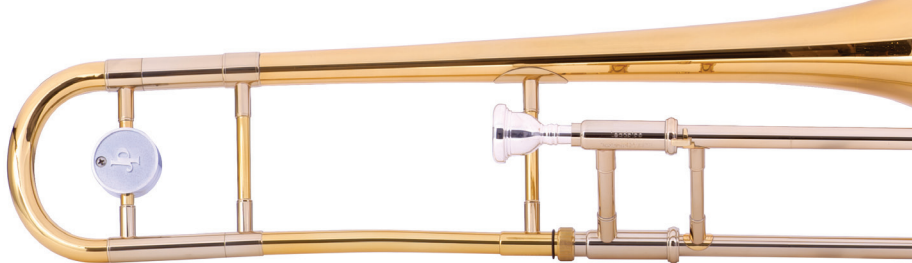

Bell: 26"

Valves: Stainless Steel Valves

Finishes: Lacquer, Silverplate

JP Mouthpieces

John Packer '600' series mouthpieces benefit from the same high level of care and attention as our range of JP Musical Instruments. These mouthpieces offer unbeatable value and are a reliable choice for students and entry level players.

Designed for ease of use, JP mouthpieces are generally free-blowing and capable of playing with a bright and attractive sound. The JP range of mouthpieces has been developed to mimic the performance of more expensive makers.

We have a variety of small shank and large shank mouthpieces available.
