

The V20G is another Guarneri inspired violin which produces a rich and sweet, yet powerful sound. Each instrument is painstakingly finished with a specially formulated shading oil varnish which gives a beautiful appearance and warmer tone. The wood material has been carefully selected and like the YVN Series violins, the V20G offers excellent sound and playability, with consistent quality in every instrument. The V20G is sold as a separate instrument only. It doesn't include case, bow, or other accessories.
