

LARSEN STRINGS^{A/S}

Larsen Strings A/S, Elholm 6 A, DK-6400 Sønderborg, Denmark

Information Sheet

Larsen Virtuoso[®] for Violin

Our Virtuoso option for the violin is now a firmly established and a highly popular choice for those looking for a richly nuanced sound and with an exceptional volume at only moderate tension.

Eminently playable and noted for its remarkable string response and reliability the Larsen Virtuoso is available as sets or individual strings with E ball or loop end.

String Details

The Virtuoso E string is made using a unique carbon steel, while the A, D and G strings build upon a new, pioneering synthetic multi-filament core. The A string is wound with precision rolled aluminium flat wire and the D and G strings are wound with pure silver.

We offer Larsen Virtuoso strings in two tensions, medium and strong. Virtuoso medium and strong are both somewhat lower in tension than the more conventional equivalent gauges.

The medium tension strings show extraordinary string response, playability and sound modulation capability. The strong version is rather more focused in sound, with a more 'soloistic' feel and with higher resistance to the bow.

Larsen Virtuoso for Violin		Medium kg/lbs	Strong kg/lbs
Type	Tailpiece/Peg Silks		
E Ball		7.8 / 17.2	8.4 / 18.5
E Loop		7.8 / 17.2	8.4 / 18.5
