Music makes life better!

LEARNING TO PLAY AN INSTRUMENT AND MAKING MUSIC ARE LIFE-CHANGING THINGS TO DO, ESPECIALLY FOR CHILDREN.

Starting this in early childhood nurtures many things including perception, motor skills and the ability to learn and retain information. Making music also promotes personal confidence and social skills. These are all beneficial well beyond one's childhood years.

NINO® Percussion offers an outstanding collection of musical instruments designed specifically for children. These more than meet the requirements of early childhood music education and are ideal for kindergarten and school programs, or for music therapy and other music-making activities.

It is important to know that NINO® Percussion instruments are not toys. These are the real thing, designed for safety, durability, attractiveness and playability.

Most importantly, they are in tune and musical. In fact, the only difference between NINO® Percussion instruments and those created for adults is their size and colour.

These appealing and pleasing designs are all made in Germany. And because they are of such a high quality and include a wide variety of sound choices, they are extremely popular with young players of all ages (teachers love them too). Yes, whether played alone or within a group, the performance and sound quality of NINO® Percussion instruments make them the ideal choice for young musicians and those who teach them.

NINO-SRS1-L

NINO519

WOODPECKER

The NINO® Woodpecker creates an amazingly realistic "woodpecker" sound, kids will love! It's a great effect instrument which is also interesting for professional players who look to increase their sound arsenal.

Material Siam Oak (*Hevea brasiliensis* Muell.-Arg.)
Age rating 3+

NINO-WRM1

WOOD RAINMAKER

Made of birch wood, the NINO® Rainmaker mimics the sound of a rainstorm by simply tipping either end of the instrument, allowing the filling inside to trickle down and create a rushing rain sound. This rainmaker has rounded corners for safe use and is lightweight for children to handle easily.

Sizes 12" long
Material Baltic Birch (*Betula Pendula*)
Features Birch wood construction with rounded corners
Authentic rain sounds with a long sustain
Age rating 5+

Hand Percussion

JINGLE STICKS

The NINO® Jingle Sticks feature six pairs of Nickel Silver plated jingles firmly mounted on a plastic frame with a handle. The jingle stick can be played like a tambourine, or like a drumstick on a conga, bongo, or djembe. New and interesting sounds can be achieved with this instrument.

- Materials** Jingles: Nickel Silver plated steel
Frame: ABS
- Features** Ergonomically shaped handle
New sound ideas
- Colours** BK = Black
R = Red
Y = Yellow
- Age rating** 3+

NINO960-2

DOUBLE BELL STICK

The NINO® Double Bell Stick with wooden grip delivers classic, rich sleigh bell sounds in an easy-to-handle design. Two steel bells mounted on each end of the ergonomic wooden handle respond with a musical shimmer that works great as a percussion accent in a classroom music setting.

- Size** 6" long
- Materials** Steel bell
Wooden handle
- Features** Ergonomically shaped handle
Steel bells mounted on each end
- Age rating** 3+

NINO960

BELL STICK

The NINO® Bell Stick is a great way to introduce children to rhythm and beats. Features a single sleigh bell attached to an ergonomically shaped handle and creates a light and subtle sound.

- Size** 5" long
- Materials** Steel bell
Wooden handle
- Features** Ergonomically shaped handle
Bell mounted on stick
- Age rating** 3+

NINO518

RACKET TAMBOURINE

The NINO® Racket Tambourine features a sturdy rattan frame along with a nice sparkling sound. It is available as a one row construction with 9 aluminum jingle pairs. An ergonomically shaped handle makes it perfect for children hands.

- Materials** Jingles: Aluminum
Frame: Rattan
- Feature** Ergonomically shaped and padded handle
- Age rating** 3+

NINO962

The NINO® Sleigh Bell produces a true sleigh bell sound. An ergonomic grip assures easy control for kids.

- Size** 4 bells
- Materials** Wooden handle
Steel bells
- Features** Ergonomic grip
True sleigh bell sound
- Age rating** 3+

Hand Percussion

SAND BLOCKS

SAND BLOCKS

The colourful Sand Blocks from NINO® make very unique sounds by rubbing the sandpaper surfaces together. Sold in pairs, these fun percussion instruments are great for picking up and making interesting and exciting rhythms.

Material Pine Wood (*Pinus Radiata*)

Features Sold in pairs
Unique sounds

Colours B = Blue
GR = Green
R = Red

Age rating 4+

NIN0940R

NIN0940GR

NIN0940B

How to play

Sand Blocks

1. These lightweight sand blocks have two sounds in one – a wood block sound when clapping the pieces and sweeping textures when the inside surfaces are scrubbed together.
2. Keep the beat by clapping together for full wood block sounds.
3. Swipe the inside surfaces together between claps for a fun sweeping sound that adds unique texture to any rhythm.
2. Moving the blocks against each other in any direction draws a rich sound and allows players to find the most comfortable way to find a musical beat.

NIN0701

NIN0702

CABASAS

The NINO® Cabasas are made from a wooden cylinder covered with a rippled metal plate, which is surrounded by a net of metal beads. Holding the handle with one hand and scratching the metal beads with the other hand on the metal plate creates the classic cabasa sound. The smaller 2" model was especially designed for a child's hand.

Sizes	Small (NIN0701) Medium (NIN0702)
Materials	Steel chain and cylinder Beech Wood
Feature	Ergonomically shaped wooden handle
Age Rating	4+

How to play

Cabasas

1. Hold the handle of the cabasa with one hand while cupping the beads with the other.
2. Rotate your wrists to rub the beads across the metal cylinder to create the scraping sound.

How to play

Energy Chimes

1. Hold the energy chimes by the wooden base. Strike the chimes with the included beater. The free floating bars will create a very long sustain.
2. The energy chimes consist of three individual bars which offer three different pitches. These NINO® instruments have a very cutting “ping” sound.

Hand Percussion

GLOCKENSPIEL

The NINO® Glockenspiel is a child-friendly way to start out with music. The jolly fish has colourful keys tuned to a scale of c d e f g a b c'. The keys may be removed for simplicity and later replaced as your child develops confidence. All corners are contained inside the rounded profile of the wooden body. The googly eye and flapping blue tail make the "Fish" Glockenspiel a charming and entertaining character!

Tones	c, d, e, f, g, a, b, c
Material	Body made out of Pine Wood Removable colour-coded metal keys
Includes	Two wooden mallets Songbook
Finish	Matte
Age rating	3+

NINO901

C MAJOR SCALE GLOCKENSPIEL

The NINO® Glockenspiel is a compact, child-friendly instrument that is great for learning the musical fundamentals. The NINO® Glockenspiel has a scale from c3 to f4. It also has a b-flat3 and an f-sharp3 key mounted on the side, as supplemental notes that complete the C major scale. The keys may be removed for simplicity and later replaced as the young player develops confidence. Mallets are included.

Tones	c3, d3, e3, f-sharp3, g3, a3, b-flat3, b3, c4, d4, e4, f4
Material	Wooden body Removable steel keys
Includes	Two wooden mallets
Finish	Matte
Age rating	5+

NINO902

WAH-WAH TUBE

The NINO® Wah-Wah Tube is a tubular effect instrument that delivers smooth, bell-like tones with an incredible sustain. By covering and uncovering the sound hole a "wah wah" effect can be achieved. An amazing effect instrument with surprising results and a lot of fun for kids to play.

Material	Anodized aluminum
Includes	Wooden stick with rubber beater
Colour	R = Red
Age rating	4+

NINO602R

WOOD KALIMBAS

NINO® Wood Kalimbas are great sounding melodic instruments that make it enjoyable for children to begin learning about music. The chrome plated steel keys tuned to specific notes deliver a light sound that is pleasant for a recreational or classroom setting. The solid wood body projects the notes being played to deliver full and rich tones. These are perfect instruments for developing the fundamentals of rhythm and melody.

Sizes	Small – g#’ c’ f’ f’ c’’ (NIN0963GR) Medium – c’’ c’ a’ a’ e’ e’’ (NIN0964R)
Material	Radiata Pine (<i>Pinups Radiata</i>)
Features	Chrome plated steel keys Solid wood construction Light and pleasant sound
Colours	GR = Green R = Red

WOOD STIRRING DRUMS & MALLETS

NINO557

WOOD BALL STIRRING DRUM

The NINO® Wood Ball Stirring Drum is a further development of the familiar stirring drum. When playing the drum, a wooden ball fastened to a nylon string strikes the tonally matched wooden tongues and produces a harmonic sound.

Material Siam Oak (*Hevea brasiliensis* Muell.-Arg.)
Feature Ergonomically shaped handle
Age rating 4+

NINO556

WOOD STIRRING DRUM

The eight wooden tongues produce different pitches when they are struck separately, like playing a xylophone. By stirring in the drum with the included beater a scale can be played.

Material Siam Oak (*Hevea brasiliensis* Muell.-Arg.)
Feature Ergonomically shaped handle
Includes Wooden beater
Age rating 3+

NINO9

WOOD BEATER

The wood beater can be used for most percussion instruments.

Material Siam Oak (*Hevea brasiliensis* Muell.-Arg.)

NINO970

NINO971

PERCUSSION MALLETS

The NINO® Percussion Mallets are great to use with woodblocks, hand drums, and other commonly found percussion instruments. Made with white beech wood with either felt or rubber heads, these mallets are extremely versatile and durable, offering different options for sound and touch.

Size 10" long
Materials White Beech
Natural felt (NINO970)
Rubber (NINO971)
Features Big felt head, medium hard (NINO970)
Small rubber head, medium hard (NINO971)
Out of finest white beech
Made in Germany
Age rating 3+

How to play Stirring Drum

1. Drag the included beater around the interior of the stirring drum, striking each of the tongues, creating a melodic stirring sound.
2. Turning both wrists while playing the stirring drum will make it easier to play.
3. Strike the tongues individually with the beater to create unique melodies.

SHAKE 'N PLAY

The NINO® Shake'n Play is a sound-based memory game for two to four children ages three years and up, and fun for the entire family. Sixteen identical shakers make eight matched pairs. The object of the game is to find the pairs by remembering the sounds and positions on the board.

SHAKE 'N PLAY

- Materials** Plastic shakers
Base out of Siam Oak
(*Hevea brasiliensis* Muell.-Arg.)
- Includes** 16 shakers (8 pairs)
Game guide (in 8 languages)
Wooden base
- Colour** Orange
- Age rating** 3+

How to play

Shake 'n Play

1. Place all the pieces on the board photo side down.
2. Players take turns shaking the pieces trying to find a pair that sounds the same, using the photos on the bottom to confirm they are correct.
3. If a correctly matched pair of shakers is found, then the player may keep the shakers. The player with the most shakers after all the shakers are claimed wins.

SEA DRUMS

The NINO® Sea Drums have hundreds of tiny metal balls enclosed between two clear mylar heads. By holding the drum horizontally and gently rolling it, you create the sounds of the ocean surf.

Sizes	8" (NIN044) 10" (NIN034) 12" (NIN035) 14" (NIN030)
Materials	Siam Oak (<i>Hevea brasiliensis</i> Muell.-Arg.) Two clear synthetic heads
Feature	Soothing sounds
Age rating	3+ (NIN044) 5+ (NIN034, NIN035, NIN030)

How to play

Sea Drums

1. Hold the sea drum horizontally and turn the drum slowly to create the sound of waves flowing in the sea.
2. Striking the sea drum in a horizontal position will create a crashing waves sound.
3. Holding the drum vertical and striking the heads will create a more traditional drum sound with some added rattle for a variety of interesting effects.

TUNABLE HAND DRUMS

How to play

Tunable Hand Drums

1. Strike the edge of the hand drum to create a long open tone.
2. Strike the center of the hand drum to create a short closed tone.
3. To tune the hand drum use the provided tuning key. To tighten the head, turn wrench clockwise. To loosen the head, turn counterclockwise. Tightening the drum will create a high pitch, causing a brighter sound. Loosening the head will create a low pitch, causing a darker sound.

Bongos

ABS BONGOS PLUS

ABS BONGOS PLUS

A real alternative! The NINO® ABS Bongo Plus is an affordable bongo with a great sound and functional hardware. Shells made of ABS plastic make this bongo lighter than comparable wood models.

Size	6 1/2" & 7 1/2"
Material	ABS plastic
Features	Hand selected buffalo heads Rounded rims for playing comfort Black powder coated hardware
Includes	Tuning key
Colours	B-BK = Blue Shell/Black Hardware R-BK = Red Shell/Black Hardware Y-BK = Yellow Shell/Black Hardware
Age rating	5+

NIN017B-BK

NIN017Y-BK

NIN017R-BK

How to play

Bongos

1. Traditionally, you play the bongo between your legs with the smaller drum on your left.

A slap tone gets produced by cupping your fingers slightly as you strike the head of the bongo.

2. To create an open tone hit the edge of the bongo with the knuckle part of your palm and let your fingers bounce off the head.

ROPE TUNED SYNTHETIC DJEMBES

The new NINO® Rope Tuned Synthetic Djembes with their patented synthetic construction are used to create a djembe that is ultra-lightweight. As a result of that, these drums are a great choice for kids, especially at schools and drum circles. The hand selected goat skin head produces a warm traditional djembe sound. The synthetic head version makes the drum perfect for outdoor playing, as it is unaffected by the weather.

Sizes	8", 16" tall (NINO-PDJ1-S-G, NINO-PDJ1-S-F) 10", 21" tall (NINO-PDJ1-M-G, NINO-PDJ1-M-F)
--------------	---

Materials	Synthetic shell Hand selected goat head (NINO-PDJ1-S-G, NINO-PDJ1-M-G) Synthetic head (NINO-PDJ1-S-F, NINO-PDJ1-M-F)
------------------	--

Features	100% synthetic shell are perfect for outdoor playing Ultra-lightweight makes them easy to carry High quality PP nylon ropes Produces sharp slaps and deep bass tones Non-slip rubber bottom

Djembes

WOOD DJEMBE

WOOD DJEMBE

The Djembe is the most popular African drum. Even first time players are quickly able to draw different tones from this great instrument. The NINO® Wood Djembe has a diameter of 10" and a height of 21" and is the perfect drum for children at school.

Size	10" 21" tall
Material	Siam Oak (<i>Hevea brasiliensis</i> Muell.-Arg.)
Features	Hand selected goat head Rounded rim for playing comfort Black powder coated hardware
Includes	Tuning key
Colour	NT = Natural
Age rating	5+

NINO48NT

How to play

Djembes

1. Place the djembe between your legs, crossing your ankles in front of you for support. Keeping your hands relaxed, strike the head of the drum near the edge for strong open and slap tones. Striking the drum in the middle will produce a powerful bass tone.
2. Using those tones, and alternating between your right and left hands, create your own patterns and rhythms.

3. To tune the djembe use the provided tuning wrench. To tighten the head, turn wrench clockwise. To loosen the head, turn counter-clockwise. Tightening the drum will create a high pitch, causing a brighter sound. Loosening the head will create a low pitch, causing a darker sound.

Congas

FEEL THE
RHYTHM!

Congas

WOOD CONGA SETS

NINO® Congas are famous for their professional workmanship in wood sets. They all include basket stands and can therefore be played individually or in a set configuration.

NIN089 WOOD CONGA SET

The NIN089 Wood Congas can be played standing up or sitting down and are therefore the perfect congas for children in kindergartens.

Sizes	8" & 9", 22" tall
Material	Siam Oak (<i>Hevea brasiliensis</i> Muell.-Arg.)
Features	Hand selected buffalo heads Rounded rims for playing comfort Black powder coated hardware
Includes	Basket stands Tuning key
Colour	NT = Natural
Age rating	5+

NIN089NT

NIN0910 WOOD CONGA SET

The NIN0910 Wood Congas are ideal for first time players or schools. Height adjustable stands included.

Sizes	9" & 10", 28" tall
Material	Siam Oak (<i>Hevea brasiliensis</i> Muell.-Arg.)
Features	Hand selected buffalo heads Rounded rims for playing comfort Black powder coated hardware
Includes	Height adjustable basket stands with quick set up system Tuning key
Colour	NT = Natural
Age rating	8+

NIN0910NT

How to play

1. Keeping your hands relaxed, strike the head of the conga near the edge for strong open and slap tones. Striking the drum in the middle will produce a powerful bass tone.
2. Use the two congas together to create fun and interesting rhythmic and melodic patterns and grooves.
3. To tune the conga use the provided tuning wrench. To tighten the head, turn wrench clockwise. To loosen the head, turn counter-clockwise.

It's our world, we care for it

ACTIONS SPEAK LOUDER THAN WORDS!

This is why we take our responsibility seriously and commit ourselves to several environmental projects. Our specially developed vacuum distillation saves 90,000 liters of drinking water, the world's most threatened resource. In order to minimize our electricity usage, all of our buildings are equipped with motion sensors and our centralized electricity controls prevents the waste of this resource. With our

solarpower-plant (Photovoltaic-System) we produce enough power to supply 170 houses with electricity. All of the electricity used in our facility is produced from renewable energies. Thus we reduced our carbon monoxide emission from 200 tons per year down to zero. Reusable materials like paper, plastic or styrofoam are too precious to be wasted. We separate them for efficient recycling.

WOOD FROM ENVIRONMENTALLY CONTROLLED WOOD PLANTATION

Thailand is a logical manufacturing base for percussion instruments due to the fact that the *Hevea Brasiliensis*, which was indigenous to Brazil and later transported by way England to Asia, has been commercially grown in Southeast Asia during the last century on plantation farms for the production of Latex. The traditional plantation of Siam Oak (*Hevea brasiliensis* Muell.-Arg.) meets all ecological requirements.

Same counts for the plantation grown Mahogany Wood from Indonesia, which we use for our Original African Style Rope Tuned Wood Djembes. In a natural evolution, new trees are planted and the older ones, which have ceased to provide latex, are harvested. In this way, plenty of raw material is available and the valuable rainforest eco-system is preserved.

MATERIAL & ECOLOGY

Wood is a raw material which is present in almost every part of our daily life. Trees are an important part of the complex eco-system while healthy forests are imperative for the Earth's atmosphere. Only plantation grown Wood is used for the making of NINO® percussion instruments. This wood fulfils the CITES regulations ("Convention on International Trade in Endangered Species of Wild Fauna and Flora") and originates from environmentally controlled forests from industrial wood plantations.
