MANUFACTURING

Vater's undivided focus is to give you, the drummer, the highest quality drum sticks, specialty sticks and drum accessories in the world.

VATER MANUFACTURING: THE FACTS

- Vater has several Hickory wood suppliers that are exclusive to Vater. They produce dowels based on very specific terms to produce the finest quality Hickory for drumsticks.

- Hickory only grows in the United States and is the best wood in the world to produce striking tools. (Hammers, Ax Handles, and yes..drumsticks). Hickory absorbs a great amount of shock.

- The best process to producing very white Hickory is to use low temperatures when Kiln drying so not to "pink" the wood. The Kilns start drying at 85 degrees and are slowly increased but never exceed 105 degrees.

- The Kiln drying cycle time that produces the best results is 2 1/2 weeks.

- Vater's Hickory is stress released which is done by slowly raising the temperature at the end of the drying cycle for 8 hours. This relieves the stress in the wood and produces straight sticks that stay straight.

- Vater uses the 2 best Hickory species for it's drumsticks which are Shell Bark and Shag Bark Hickory

- Vater uses a dowel moisture content specific to "striking" tools (10%-12%). Some of Vater's major competitors use a moisture content known for furniture manufacturing (6%-8%). Wood is cellulose fiber and water.....The more water moisture you extract, the weaker the wood. The more water moisture present (as in Vater sticks), the stronger the wood.

- Vater produces 85% of it drumsticks from Hickory and 15% from Sugar Maple.

- Only the outer 3"-5" of the Hickory tree is used to make drumsticks. This is the live part of the tree which is call the Sap Wood.

- It takes 16-22 years for a Hickory tree to grow before it is harvested for drumstick production.

- Each time a Hickory tree is cut, another one is planted. New trees are also produced from the Hickory Nuts that naturally fall from the trees.

- USA grown Sugar Maple along with Hickory is one of the strongest hardwoods in the world.

- Sugar Maple is now used by many Baseball stars for their bats instead of Ash because of it's strength.

Vater Percussion and the environment

All wood shavings left behind from manufacturing are used by animal farms local to the Vater factory. Once used at the farms, they are then re-used for compost.

Vater has chosen a waste disposal contractor that is committed to recycling. Recyclable goods are separated and sent for recycling at their sorting facility.

UNMATCHED QUALITY GUARANTEE

Vater guarantees their drumsticks to be straighter, more consistent and of higher quality than all other leading drumstick manufacturers. Vater's Nylon tips are guaranteed not to fall off, crack or break for the performance life span of the drumstick. 100% of Vater's drumsticks are manufactured in the USA. All Vater Drumsticks are tone and weight matched by computer analysis.

CHOOSING THE RIGHT STICK FOR YOU WITH MIKE JOHNSTON

In your search for the right stick, there's a lot of models that are available to you. I spent YEARS endorsing one particular model with another company before joining Vater. For over a decade, I just thought: "Sticks are sticks."

It never occurred to me to check out any other models, or even brands. It really wasn't until I started pulling sticks out of a store bin one day, while helping a new student pick out his first pair, that I really started to notice the differences between them all. While doing that I thought: "Maybe the stick I'm using isn't the right one for ME?"

When I picked up Vaters that day, I instantly discovered what I had been missing out on for all those years. It didn't matter what Vater model I pulled out of that bin, they all felt great while having their unique differences. That experience really got me thinking and analyzing my stick choice and size. Not only were the Vater sticks better quality, but my playing had been somewhat restrained from using a size that really wasn't comfortable for me after all.

Trust me, with all the models that Vater makes, there's definitely one that's just right for you. Whether you currently play Vater or not, explore their product line and experiment with different models. You will find yourself very pleased with what you discover!

Thickness

The diameter or thickness of a stick is one of the most crucial parts to choosing a pair of drum sticks for yourself. The diameter of the stick effects the overall weight which in turn effects the volume, strength and grip. A thicker stick will be heavier and stronger but it will also have a slightly slower rebound off of the drum or the cymbal. The added weight will also increase the volume of a given stroke. A stick with a smaller diameter will be lighter, slightly quieter, and rebound faster.

Length

The length of a stick drastically affects the feel of the stick. Although it may not seem like much, a quarter of an inch makes a great difference in the reach of the stick as well as the rebound.

Taper

The taper of a drum stick affects the overall balance of the stick. The longer the taper, the quicker the stick will respond off of a cymbal or a drum. The shorter the taper, the stiffer the stick will be and the less the stick will "bounce" off of the kit. The trade out here is strength. The shorter the taper the stronger the stick.

Tip

The tip of a drum stick impacts the sound more than any other factor. A small tip will give you a bright, clean sound on the cymbals. A large tip will produce a warm, full tone. The other option to consider here is nylon vs. wood. Neither is better or worse. If you want a bright, clean sound that will cut through guitars and bass then you want to go with a nylon tip. If you want a warmer, natural tone that will blend in with the surrounding sounds then you want to go with a wood tip.

TEARDROP
Produce rich, dark tones with focused lows.

BARREL
Tips produce a full punchy sound. Great for louder volume situations.

BALL
Tips produce a clean, bright and articulate sound.

ACORN
Produce a full, fat sound. Very responsive.

OVAL
Tips produce a broad, mid range sound due to tip length.

NYLON
Tips produce a brighter sound than wood tip models. More durable than wood tips.

Wood Types

HICKORY
Hickory is the most popular wood choice for drumsticks due to it's warm sound and durability. Hickory is a great choice for all styles of music.

MAPLE
Maple is a lighter wood that produces a very fast stick with higher pitched tones. Due to it's lightness maple is a perfect choice for someone who is looking for a thicker stick without the extra weight.

With all of this insight on what differs one pair of sticks from another, there is still one question you need to ask yourself before making a decision: How does it feel in your hand? You will know when you've found the right stick because it will feel like a natural extension of your body.

NEW VATER ARTISTS

AMERICAN HICKORY

American Hickory dowels have to meet very strict quality characteristics to be made into a Vater drumstick. Vater only uses dowels that have a specific moisture content, straightness and grain structure to in-turn, produce a higher quality drumstick.

Models arranged by diameter

Power 3A **NEW**
 L 16 5/8" • 42.23cm
 D .600" • 1.52cm
 Wood VHP3AW Nylon VHP3AN
 A longer version of the top-selling 3A model for added reach and ability to "choke up" on the stick.

Heartbeater **NEW**
 L 16 1/8" • 40.95cm
 D .580" • 1.47cm
 VHHBW
 Between a 5A and 5B in the grip. A solid feeling drumstick with an acorn style tip that gives the player outstanding rebound from around the drumkit. A great stick for mid-volume Rock music situations.

Sweet Ride **BEST SELLER**
 L 16" • 40.64cm
 D .530" • 1.35cm
 VHSRW
 Extra small round tip produces outstanding clarity on cymbals.

52nd St. Jazz
 L 16" • 40.64cm
 D .530" • 1.35cm
 VH52JW
 Named after the legendary street in Manhattan and replicated after one of the early hand-turned Jack's Drum Shop Models this design is straight out of the great Jazz and Big Band era. The long and flat oval tip produces warm and broad ride cymbal tones with full-bodied drum sounds. The quick taper gives it a great feel and response.

Los Angeles 5A **BEST SELLER**
 L 16" • 40.64cm
 D .570" • 1.45cm
 Wood VH5AW Nylon VH5AN
 Very well balanced stick. Heavier toward the tip for fast attack and response on drums.

5A Stretch
 L 16 3/4" • 42.55cm
 D .570" • 1.45cm
 VH5AS
 Same grip as a standard 5A, but longer for some extra reach around the kit. Small Acorn tip for warm cymbal tones. A very versatile stick model in size.

55AA
 L 16 1/2" • 41.91cm
 D .570" • 1.45cm
 VH55AA
 Offers just a little extra reach for the 5A player without adding a bunch of weight or compromising the feel of the stick. Features the classic acorn style tip.

Session **BEST SELLER**
 L 16" • 40.64cm
 D .570" • 1.45cm
 VHSEW
 Comfortable to the traditional 5A player. Small acorn tip for great cymbal and drum sounds.

Studio
 L 15 7/8" • 40.32cm
 D .530" • 1.35cm
 VHSW
 Barrel-shaped tip gives a full sound without overwhelming volume. Just under a 7A in grip size.

Swing
 L 16" • 40.64cm
 D .535" • 1.36cm
 Wood VHSWINGW Nylon VHSWINGN
 Designed in collaboration with renowned educator Steve Fidyk, the Swing model has a "double taper", meaning that it is slightly thicker towards the middle of the stick than in the grip and then finishes with a very quick and thin taper. This produces a stick that possesses great sensitivity and exceptionally fast rebound.

Traditional 7A
 L 15 1/2" • 39.37cm
 D .540" • 1.37cm
 Wood VHT7AW Nylon VHT7AN
 Dubbed "traditional" because Vater's 7A is longer and has a different tip shape than standard 7A's in the industry. This classic style 7A has a great feel for lighter playing. The small acorn tip delivers full cymbal and drum sounds without being overbearing.

Manhattan 7A **BEST SELLER**
 L 16" • 40.64cm
 D .540" • 1.37cm
 Wood VH7AW Nylon VH7AN
 Longer than an average 7A with a small round tip for defined cymbal work.

Matrix **BEST SELLER**
 L 16 1/8" • 40.96cm
 D .570" • 1.45cm
 VHMTRXW
 The Matrix measures out as a 5A in the grip with a gradual taper to a small barrel tip for extreme cymbal clarity. A very quick feeling stick that is great stick for Jazz, Funk and R&B drumming.

Excel
 L 15 1/4" • 38.74cm
 D .575" • 1.46cm
 VHELW
 Shorter stick with a barrel-shaped tip and quick taper. Great for getting around the kit quickly.

Jazz Ride **BEST SELLER**
 L 16" • 40.64cm
 D .575" • 1.46cm
 VHJZRW
 Slightly over a 5A in the grip. Long taper to a small teardrop tip for a great ride cymbal sound, response and definition.

Phat Ride **BEST SELLER**
 L 16" • 40.64cm
 D .580" • 1.47cm
 VHPTRW
 Quick taper to a medium-sized round tip produces a clean sound on ride cymbals. Very versatile and playable stick with great balance.

7A Stretch
 L 16 3/4" • 42.55cm
 D .540" • 1.37cm
 VH7AS
 A long version of a traditional 7A for some extra reach. Small Acorn tip for warm cymbal tones. Great for a variety of drumming applications.

Studio 2
 L 15 7/8" • 40.32cm
 D .550" • 1.40cm
 VHS2W
 Beefier version of the Studio with a grip just under a 5A.

New Orleans Jazz **BEST SELLER**
 L 16" • 40.64cm
 D .555" • 1.41cm
 Wood VHNOJW Nylon VHNOJN
 A defined taper and acorn tip for classic feel.

Super Jazz **BEST SELLER**
 L 16 3/8" • 41.59cm
 D .555" • 1.41cm
 VHSJW
 Jazz-style grip with a little extra length. "Quick" feeling stick.

Fusion™ Acorn **BEST SELLER**
 L 16" • 40.64cm
 D .580" • 1.47cm
 VHFVW
 A new tip on an iconic stick...The Fusion Acorn is the same design as the classic Vater Fusion but with an acorn tip for a warmer cymbal and drum tone.

Fusion™ Acorn **BEST SELLER**
 L 16" • 40.64cm
 D .580" • 1.47cm
 VHFVW
 A new tip on an iconic stick...The Fusion Acorn is the same design as the classic Vater Fusion but with an acorn tip for a warmer cymbal and drum tone.

Power 5A **BEST SELLER**
 L 16 1/2" • 41.91cm
 D .580" • 1.47cm
 Wood VHP5AW Nylon VHP5AN
 Comfortable to the 5A player but with 1/2" extra length for extra reach and weight.

West Side **BEST SELLER**
 L 16 5/16" • 41.43cm
 D .590" • 1.50cm
 VHWS
 The West Side is a real unique sounding stick. The grip size measures comfortably in-between a 5A and 5B. The small rounded oval style tip blends right into the neck and taper of the stick for a unique feel and sound dynamic.

8A **BEST SELLER**
 L 16" • 40.64cm
 D .555" • 1.41cm
 VH8AW
 Small barrel-shaped tip for defined cymbal articulation. Very responsive.

Pro Rock
 L 16 1/4" • 41.28cm
 D .555" • 1.41cm
 Wood VHPRW Nylon VHPRN
 Slightly under a 5A in the grip with an oval tip.

Recording **BEST SELLER**
 L 16 1/8" • 40.96cm
 D .560" • 1.42cm
 VHRECW
 Nicely sized barrel-shaped tip for broad and dynamic tones. Superb balance and feel.

Hitmaker
 L 16 1/4" • 41.28cm
 D .570" • 1.45cm
 VHHITW
 5A sized in the grip with a gentle taper and an acorn-style bead that puts out great tone from around the drum-kit. A very well balanced, responsive and solid feeling stick.

Fatback 3A **BEST SELLER**
 L 16" • 40.64cm
 D .590" • 1.50cm
 Wood VH3AW Nylon VH3AN
 Sturdy shoulder and neck with a rounded barrel tip for volume.

1A **BEST SELLER**
 L 16 3/4" • 42.55cm
 D .590" • 1.50cm
 Wood VH1AW Nylon VH1AN
 A lengthy stick with a 5B style grip and acorn tip.

DSK
 L 17" • 43.18cm
 D .590" • 1.50cm
 VHDSK
 A lengthy, but comfortable, stick that features a very fast taper for some added weight up top. This allows for a powerful "throw" and solid impact that is perfect for an aggressive drumming style.

Universal **BEST SELLER**
 L 16" • 40.65cm
 D .595" • 1.51cm
 VHUW
 Sturdy neck and rounded oval style tip. Great for extra volume and attack without excess weight.

AMERICAN HICKORY

5B
L 16" • 40.64cm
D .605" • 1.54cm
Wood VH5BW Nylon VH5BN
Very responsive, comfortable and balanced stick with acorn tip. Versatile stick.

55BB
L 16 1/2" • 41.91cm
D .605" • 1.54cm
VH55BB
The 55BB model offers just a little extra reach for the 5B sized model player without adding a bunch of weight or compromising the feel of the stick. Features the classic acorn style tip.

SD9
L 16 1/4" • 41.28cm
D .610" • 1.55cm
VHSD9W
Just over a 5B in the grip with an oval tip for a full sound.

Power 5B
L 16 1/2" • 41.91cm
D .610" • 1.55cm
Wood VHP5BW Nylon VHP5BN
Similar grip as 5B but with 1/2" extra length. The "big brother" to Power 5A.

Power House
L 16 1/4" • 41.28cm
D .620" • 1.57cm
VHPHW
Large acorn tip and heavy shoulder provides big sound and volume. Designed by Virgil Donati.

Rock
L 16 5/8" • 42.23cm
D .630" • 1.60cm
Wood VHRW Nylon VHRN
Full sized barrel tip and long shaft for weight and extra reach.

2B
L 16 1/4" • 41.28cm
D .635" • 1.61cm
Wood VH2BW Nylon VH2BN
Oval tip for greater surface contact. Heavier shoulder and added length for attack & punch.

Shedder
L 16 1/4" • 41.28cm
D .650" • 1.65cm
VHSHW
Great for warm-up and practice of heavy rock playing. Large round barrel-shaped tip. Designed by Virgil Donati.

Hammer
L 16" • 40.64cm
D .570" • 1.45cm
VHHW
5A sized grip with double butt end. Great for loud and aggressive musical situations.

Nightstick-2S
L 17 1/4" • 43.82cm
D .660" • 1.68cm
Wood VHNSW Nylon VHNSN
Large oval tip, extra weight and long shaft. A beefy stick!

3S
L 17 1/4" • 43.82cm
D .730" • 1.85cm
Wood VH3SW Nylon VH3SN
A very large and beefy stick. Great for drum corps and heavy players.

Junior Sticks
VMJRW
Perfect for little hands. Great way for little ones to enjoy drumming.

XTREME DESIGN

The Xtreme Design Series models have been designed to meet the great demand of drummers who have been asking for stick models weighted in between the very popular Vater Power 5A/Power 5B models and the Rock model.

XD-5A
L 16 1/2" • 41.91cm
D .580" • 1.47cm
Wood VXD5AW Nylon VXD5AN
Between a traditional 5A and 5B in the grip. Heavier taper for solid feel. Well balanced, weighted and responsive with a rounded barrel-style wood tip.

XD-5B
L 16 1/2" • 41.91cm
D .610" • 1.55cm
Wood VXD5AW Nylon VXD5BN
Just over a traditional 5B in the grip. Heavier taper for solid feel. Well balanced, weighted and responsive with a rounded barrel-style wood tip.

XD-ROCK
L 16 1/2" • 41.91cm
D .630" • 1.60cm
Wood VXD5AW Nylon VXD5BN
2B style grip. Heavier taper for solid feel. Well balanced, weighted and responsive with a rounded barrel-style wood tip.

Warrior
L 16" • 40.64cm
D .580" • 1.47cm
VXDWW
Just over a 5A in the grip. The slightly heavier taper and the rounded barrel style tip gives this stick great playability. Wood Tip Only.

Punisher
L 16" • 40.64cm
D .605" • 1.54cm
VXDWW
A slightly bigger version of the Warrior, the Punisher is perfect for when you need a bit more volume and weight. Delivers solid rim shots and full tones from drums and cymbals. Wood Tip Only.

Destroyer
L 16 1/2" • 41.91cm
D .630" • 1.60cm
VXDWW
Just over a 2B in the grip with some extra length for a bit more reach around the drums. The grip, taper and extra length make this design a great stick for heavier hitting players. Wood Tip Only.

ETERNAL BLACK

A series of popular Vater models that are the same in design, but finished with a black stain for a cool visual look.

5A
L 16" • 40.64cm
D .570" • 1.45cm
Wood VHEB5AW Nylon VHEB5AN
Very well balanced stick. Heavier toward the tip for fast attack and response on drums.

5B
L 16" • 40.64cm
D .605" • 1.54cm
Wood VHEB5BW Nylon VHEB5BN
Very responsive, comfortable and balanced stick with acorn tip. Versatile stick.

Power 5B
L 16 1/2" • 41.91cm
D .610" • 1.55cm
Wood VHEBP5BW Nylon VHEBP5BN
Similar grip as 5B but with 1/2" extra length. Features a large barrel tip for a full sound.

Warrior
L 16" • 40.64cm
D .580" • 1.47cm
Wood VHEB5BW Nylon VHEB5BN
Just over a 5A in the grip. The slightly heavier taper and the rounded barrel style tip gives this stick great playability.

Punisher
L 16" • 40.64cm
D .605" • 1.54cm
Wood VHEBP5BW Nylon VHEBP5BN
A slightly bigger version of the Warrior, the Punisher is perfect for when you need a bit more volume and weight. Delivers solid rim shots and full tones from drums and cymbals.

Destroyer
L 16 1/2" • 41.91cm
D .630" • 1.60cm
Wood VHEBP5BW Nylon VHEBP5BN
Just over a 2B in the grip with some extra length for a bit more reach around the drums. The grip, taper and extra length make this design a great stick for heavier hitting players.

COLOR WRAP

The core of the Color Wrap Series is made up of Vater's extremely popular 5A and 5B models. The eye-catching wraps themselves are high density without compromising the weight and balance of the stick. Perfect for drummers looking to add an exciting visual aspect to their playing.

NUDE SERIES

A line of drumsticks with no finish or lacquer. The unfinished sticks leave a comfortable sanded grip that is perfect for drummers who have problems with stick slippage due to hand sweat while performing.

Fusion™
L 16" • 40.64cm
D .580" • 1.47cm
Wood **VHNF5W** Nylon **VHNF5N**
Between a 5A & 5B in grip with a small round tip for cymbal clarity.

Universal
L 16 1/4" • 41.28cm
D .595" • 1.51cm
Wood **VHNU5W** Nylon **VHNU5N**
Sturdy neck and rounded oval style tip. Great for extra volume and attack without excess weight.

5A
L 16" • 40.64cm
D .570" • 1.45cm
Wood **VHN5AW** Nylon **VHN5AN**
Very well balanced stick that gives full tones and fast attack from around the kit. Very versatile.

5B
L 16" • 40.64cm
D .605" • 1.54cm
Wood **VHN5BW** Nylon **VHN5BN**
Beefed up neck diameter for power and durability. Acorn style tip for broad, full sounds. Very responsive stick.

Power 5B
L 16 1/2" • 41.91cm
D .610" • 1.55cm
Wood **VHNP5BW** Nylon **VHNP5BN**
Similar grip as 5B but with 1/2" extra length. Features a large barrel tip for a full sound.

GOSPEL SERIES

Vater's Gospel Series consists of three Hickory models designed to meet the feel, weight and volume needs of Gospel drummers. The Gospel Series models measure in at 16.5" for some extra length and three diameters to suit the variety of volume, dynamic and venues size challenges these drummers face. The round tip provides great cymbal clarity and rebound from around the drumkit.

GS-5A
L 16 1/2" • 41.91cm
D .555" • 1.41cm
Wood **VGS5AW**
Just under a traditional 5A but with a 1/2" extra length. A comfortable grip size and weight for low to mid volume situations. Barrel style tip gives this stick great playability.

GS-Fusion™
L 16 1/2" • 41.91cm
D .580" • 1.47cm
Wood **VGS5FW**
In between a 5A and 5B in the grip like Vater's popular Fusion model, but with the extra length that the Gospel Series brings. Very responsive and suitable for all applications.

GS-5B
L 16 1/2" • 41.91cm
D .605" • 1.54cm
Wood **VGS5BW**
Same grip diameter as a standard 5B but with a heavier taper than the GS-5A and GS-Fusion for added weight.

SUGAR MAPLE

Sugar Maple brings out a mature, sweet voice from drums and cymbals. Maple can provide the feel of a big stick without the extra weight of a hickory stick. We offer many of Vater's popular Hickory models in Maple for players who prefer to use the same model, but change the tone and volume that they get from that model.

Pianissimo
L 16" • 40.64cm
D .635" • 1.61cm
Wood **VSMPIANW** **NEW**

Great for a variety of applications including Orchestral, Pit, and Jazz. Maple construction offers a lighter weight for a stick of it's size. Round tip delivers precise tones.

7A
L 16" • 40.64cm
D .540" • 1.37cm
Wood **VSM7AW** Nylon **VSM7AN** **BEST SELLER**

Small round tip for highly defined and clean cymbal tones. Very well balanced stick. Great for jazz or lighter playing.

Recording
L 16 1/8" • 40.96cm
D .560" • 1.42cm
Wood **VSMRECW**

Just under a 5A in grip size. Barrel shaped tip combines broad, dynamic tone range with superb balance and feel.

Fusion™
L 16" • 40.64cm
D .580" • 1.47cm
Wood **VSMFW** Nylon **VSMFN** **BEST SELLER**
Between a 5A and 5B in grip diameter. Very well balanced with a gradual taper and small round tip.

Power 5B
L 16 1/2" • 41.91cm
D .610" • 1.55 cm
Wood **VSM5BW** Nylon **VSM5BN**
Similar grip as 5B but with 1/2" extra length. Features a large barrel tip for a full sound.

Concert
L 16 1/2" • 41.91cm
D .630" • 1.60cm
Wood **VSMCW** Nylon **VSMCN** **BEST SELLER**
Slightly under a 2B in the grip with a refined round head for volume and attack. A big stick without a lot of weight.

Phat Ride
L 16" • 40.64cm
D .530" • 1.47cm
Wood **VSMPTRW**

In between a 5A and 5B for a comfortable grip. The quick taper to a medium-sized round tip produces a clean sound on ride cymbals. A very versatile stick.

Super Jazz
L 16 1/4" • 41.28cm
D .555" • 1.41cm
Wood **VSM5JW** **BEST SELLER**

A Maple version of Vater's popular Super Jazz model for a lighter feel. Jazz Style grip, under a 5A, with a little extra length and long taper.

Session
L 16" • 40.64cm
D .570" • 1.45cm
Wood **VSM5EW**

BEBOP

The new BeBop series are smaller grip sized models that are perfect for lower volume or Jazz settings. The 500 and 525 models come in under a 7A in the grip. The quick taper produces a fast rebound with a small tip size for a clean ride cymbal tone. All three models available in Hickory and Maple. Maple will offer even more of a lighter touch and slightly warmer cymbal tone.

CYMBAL STICKS

The Cymbal Stick models, which were originally designed and hand-turned in the mid 1950's by Jack Adams (Alan & Ron Vater's grandfather), have been recreated. These Maple models feature the same distinct tip shapes and specifications that gave drummers of the great jazz and big band era that unforgettable cymbal sound. Same as the originals did decades earlier, each of these four models gives their own unique voice on cymbals.

D .500" • 1.27cm
VHTDG
Timbalero Tito De Gracia has a long list of recording and performing credits with major artists from the worlds of Salsa and Latin jazz. Tito's timbale model has a bit extra length for some added weight and is made from hickory for supreme durability.

Gajate's Sazon
L 16" • 40.64cm
D .460" • 1.17cm
VHGJEW
The Sazon is a great feeling Timbale stick that measures in between a 7/16" and 1/2" Timbale stick. Perfect for any percussionist. Hickory.

Karl Perazzo's Drumbale
L 15 1/2" • 39.37cm
D .520" • 1.32cm
VHKARLW
A tapered Hickory Timbale stick that has the feel of a traditional drumstick with the finesse and quickness of a Timbale stick. This unique, multi-purpose design allows a player to switch effortlessly from a drumset to percussion set up without switching sticks.

BRUSHES

A well rounded line of brushes that are designed to provide an array of sounds and textures, while maintaining a traditional brush feel in your hands.

Monster Wood
VBMW

The Monster Wood Brush features the same nylon bristles as in the Monster Brush and Little Monster, just placed in a traditional brush arrangement. The bristles give a funky and textured "swish" sound and great backbeat accents. The wood handle grip is a 5A sized diameter.

Standard Wire Brush
VWTS

Non-retractable wire bristled brush with a soft rubber grip. Also features metal rivet.

Retractable Wire Brush
VWTR

Sturdy pull-rod with round end. Wide range of brush spread adjustment.

Drumstick Brush
VWTD

Versatility of a drumstick and a wire brush all in one. Drumstick end has a 5A tip. Non-retractable.

Whip Brush
VWB

A wood handled fixed brush that is made up of the poly bristles used in Vater's popular Whip, Stick Whip and Wood Handle Whip models. The poly bristles pull out a great attack on the drums but without a ton of volume.

Sweep
VBSW

Rubber gripped wire brush that is retractable without a pull-rod.

Heavy Wire Brush
VWTHW

A rubber handled retractable brush with heavy gauge wire for a full sound. Provides a bit more weight and volume than a traditional wire brush.

Poly Brush
VPYB

Nylon bristles for flexibility and a sweet slap on drums. Retractable without a pull-rod.

Wood Handle Wire Brush
VWTW

Non-retractable wire brush with 5A sized wooden grip. Features a metal rivet at butt end for cymbal scrapes.

Poly Flex Brush
VPFLX

The non-retractable Poly bristles produce a warm, mellow sound on both drums & cymbals. 5A style wood grip.

SPECIALTY STICKS

Rock to folk to jazz to funk, Vater's Specialty Stick line covers many different sound and feel variations. These models are perfect for drummers & percussionists who often find themselves having to "tone it down" from using regular drumsticks.

NEW

Vater has updated all Splashstick models to now feature angled edges on the dowel ends for a better feel, rebound and fuller sound.

Splashstick

VSPS

19 hand-selected Birch dowels that provide warm acoustic tonality but still produce a solid "crack" around the drumkit. The extended rubber grip leaves 4" of the dowels exposed and gives a solid stick-like feel with excellent durability in the rimshot area.

Splashstick Lite

VSPSL

Same design as the Splashstick but with smaller diameter dowels for lighter weight and smaller grip size.

Splashstick Heavy

VSPSH

A thicker version of the popular Splashstick for extra weight and durability for the heavier players.

Bamboo Splashstick

VSPSB

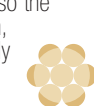

Same physical design as Vater's original Splashstick, but constructed from Bamboo dowels. The Bamboo offers superb durability and some added weight for a solid feel, without excess volume. Bamboo is also the fastest growing plant on Earth, making this a very eco-friendly percussion product.

Bamboo Splashstick Slim

VSPSSB

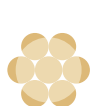

A very small diameter (under a 7A) for ultra-low volume playing. The Bamboo offers superb durability and some added weight for a solid feel, without excess volume. Bamboo is also the fastest growing plant on Earth, making this a very eco-friendly percussion product.

Splashstick Traditional Jazz

VSPSTZ

Smaller than the Splashstick Lite for really low volume applications and light weight.

Splashstick Traditional

VSPST

The ultimate traditional style multi-dowel stick. 19 hand-select birch dowels with a comfortable rubber grip that is perfect for lower volume settings.

Splashstick Rock

VSPSRK

A medium weight multi-rod stick that will cover any acoustic type gig.

Acoustick™

VMAS

Combines 7 high quality wood dowels and 6 strips of impact resistant Polymer. The Polymer acts as a protective "striking layer" to allow the player to "dig in" without the short life span of other multi-dowel sticks. Includes rubber O-Rings for wide range of adjustment for sound and feel. Patent #5728958.

Acoustick Solid™

VASS

The Acoustick Solid version is a Cross Cut Hickory stick with the same high impact protective strips. The Polymer acts as a protective "striking layer" that allows the player to dig in without the breakage and short lifespan of conventional dowel and multi-dowel sticks. Features rubber O-rings for a wide adjustment range. Patent #5728958.

Monster Brush

VBM

Designed in collaboration with New York based Vater Artist La Frae Sci, the Monster Brush is a versatile specialty brush that can be adjusted to provide the subtlety and swish of a brush or a "stick like" feel for a fat backbeat without a ton of volume. Features a large but comfortable grip and wavy polymer strands for a unique sound and feel.

Little Monster

VBLM

A smaller diameter version of the original Monster Brush for a lighter feel and weight.

Cajón

VCS

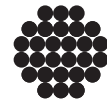

A great sounding brush/stick element for use on Cajón drums and world drumming instruments. Made of wavy polymer strands for a great sound.

Whip

VVHWP

Polybristles that pack more punch than a brush but without the volume of a drumstick.

Wood Handle Whip

VVHWP

A wood handle version of the Whip. 5B grip size allows the player the option of using either the stick or Polybristle ends for even more sound variations.

Stick Whip

VSTKW

The Stick Whip takes the very popular Fusion model and adds 3 1/2" of Whip bristles to the butt-end of the stick. Great for when you need to switch between a "stick" sound and a softer "brush" sound during a song.

Sizzle Ultra Staccato

VMSZL

Ultra staccato mallet and drumstick all in one. Maple Blazer stick for light weight and warm cymbal sounds.

Sizzle Fusion™ Ultra Staccato

VMSZLF

The classic Fusion, with a hard felt mallet head on the end. The smaller mallet head design won't interfere with your grip or playing. Round stick tip for bright cymbal tones.

Sizzle Fusion™ Acorn Ultra Staccato

VMSZLFA

Fusion Acorn model stick with a hard felt mallet head on the end. The smaller mallet head design won't interfere with your grip or playing. Acorn stick tip shape for a warmed and broad cymbal sound.

Tai Ko Bachi

VHTKBW

A hefty stick used on Taiko, Odaiko, Nagado-Daiko and other traditional Japanese drums large in size. This unique drumming style dates back more than 1,600 years. Hickory.

Chad Sexton's Custom Model

L 16" • 40.64cm
D .580" • 1.47cm
VHSEXTON

NEW

Chad Sexton's custom model is right between a 5A and 5B in the grip. The taper and rounded barrel style tip give plenty of punch and volume. All of these elements in Chad's Custom Model make a stick that offers durability and great speed to get around the kit quickly.

Chris Pennie

L 16 1/4" • 41.28cm
D .610" • 1.55cm
VHPENNIEW

Chris Pennie's model measures out at just over a 5B in the grip but has a slight double taper, meaning that it gets a little thicker towards the middle of the stick than in the grip. This gives the stick added throw and durability in the rim shot area. The smaller sized acorn tip gives articulate ride cymbal sounds that cut through in louder music. Great stick design for rock and metal players.

Mike Johnston 2-4-5-1

L 16" • 40.64cm
D .580" • 1.47cm

Hickory: VHMJ2451 Maple: VSMMJ2451

BEST SELLER

MikesLessons.com Educator Mike Johnston's 2-4-5-1 is a great all-around design that can be used in any musical style. It has a grip size between a 5A and 5B with a gradual taper to a barrel tip for ride cymbal definition. The gradual taper gives the model a fantastic and quick feel around the kit.

The 2-4-5-1 model is available in both Hickory and Sugar Maple. The Sugar Maple version is perfect for lower volume and lesson room type settings, while the Hickory version is the right choice for live and harder hitting performance settings.

Nisan Stewart

L 16 1/4" • 41.28cm
D .605" • 1.54cm
VHNISANW

Nisan Stewart has become a major name in the R&B/Pop drumming and production scenes, on top of being one of the most televised drummers year after year.

Nisan's stick model is a 5B sized stick with an extra 1/4" in length for some added reach and weight. It features an oval style tip for full sounding drum and cymbal tones. Nisan's stick design is a very well rounded model that's suitable for many musical applications.

Brian Frasier-Moore

L 16 1/2" • 41.91cm
D .565" • 1.44cm
VHBFMW

BEST SELLER

This stick design comes from one of the most in demand drummers of today. Brian's stick design is just under a 5A in the grip but with some extra length for added reach. The gradual taper to the medium sized barrel tip makes it a nicely balanced and versatile stick.

Josh Freese's H-220

L 16" • 40.64cm
D .580" • 1.47cm
VHJOSHW

BEST SELLER

Between a 5A & 5B, with a quick taper and heavy shoulder. A bit more weight up top for a solid feel, great response and durability, yet still sensitive enough for lighter playing. A slightly enlarged version of a 5A tip.

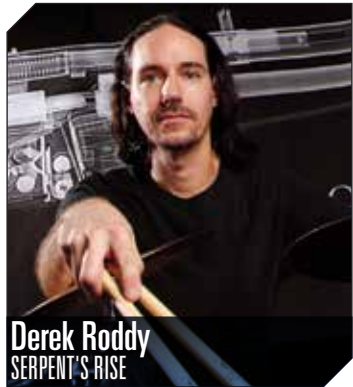

Morgan Rose's Alien Freak

L 16" • 40.64cm
D .610" • 1.55cm
VHMRAF

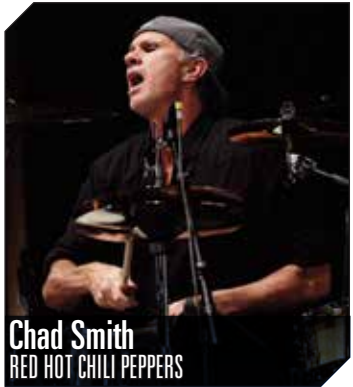

A truly unique model with no taper or tip made from "dark" hickory. This double butt-end stick has no finish or lacquer, which leaves a comfortable sanded finish. The Alien Freak design, weight and size gives a powerful and solid feel with a huge amount of volume from around the kit.

VHMICW

This design comes from one of the most respected musicians in the Gospel scene and drummer for Israel Houghton and New Breed, Big Mike Clemons. Mike's design measures out just under a 5B in the grip with an extra 1/2" in length for added reach around the kit. With a quick taper and a classic acorn style tip for full drum and cymbal tones, this model is very durable and responsive. Mike's model also features Vater's Nude Series finish for a comfortable, unlaquered grip.

Derek Roddy

L 16 1/4" • 41.28cm
D .590" • 1.50cm
VHDRW

Derek's model is in between a 5A and 5B in the grip. The stick features a really quick taper to a small acorn tip for warm but defined cymbal tones. A great stick for a variety of musical applications.

Chad Smith's Funk Blaster

L 16" • 40.64cm
D .605" • 1.54cm
VHCHADW

BEST SELLER

Same grip as a 5B but with a heavier taper for some extra weight and durability. A responsive and versatile model that is great for heavy and solid playing.

Cora Coleman-Dunham

L 16 1/2" • 41.91cm
D .530" • 1.35cm
VHCCDW

This design is as versatile as Cora herself. Cora needed a stick that could cover all genres of music without having to change models. Cora's design combines a little extra length and a gradual taper to an acorn tip to offer superb response, feel and dynamics in any musical application.

Mike Wengren

L 17" • 43.18cm
D .625" • 1.59cm
VHMWN

Designed by the multi-platinum drummer of the band Disturbed, Mike's stick measures in between a 5B and a 2B with a quick taper to an oval nylon tip. The extra length gives some added weight and a bit more reach. Nicely weighted and durable, this is a perfect stick for hard-hitting drumming. Stick is finished in a black stain.

Jimmy Cobb

L 16" • 40.64cm
D .595" • 1.51cm
VHJCW

Designed by the Jazz Legend, Jimmy's model measures in between a 5A and a 5B in the grip. Features a long taper to a medium sized teardrop tip for warm and defined cymbal tones. A "quick" feeling jazz stick.

Chico Hamilton

L 16 1/4" • 41.28cm
D .570" • 1.45cm
VHCHW

Chico's stick combines a 5A grip with a gradual taper for a very responsive and quick feel. The teardrop style tip delivers warm cymbal sounds.

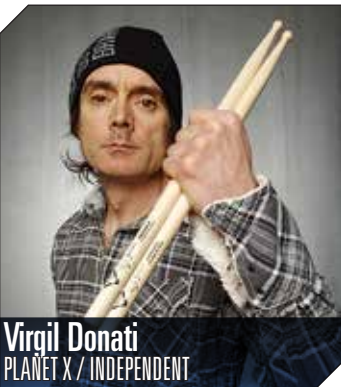

Stephen Creighton Pipe Band

NEW

BEATERS

Vater's beaters all feature a steel shaft that won't bend. Beater heads are fastened to shaft with perm-lock safety nut for extra security.

Hard Felt Beater
VBF
High density felt head. Great low-end tones and volume.

Natural Wood Beater
VBNW
Classic wood beater. Lots of punch and volume.

Red Wood Beater
VBRW
Same as natural wood beater but red in color.

Poly Ball Beater
VBPY
Provides a defined punch from bass drums. A quick feeling beater.

Cow Bell Beater
VBCB
Perfect beater for foot pedal mounted cowbells. Features a rubber striking surface.

Vintage Bomber Beater
VBVB

Conceived and designed to replicate the soft but boomy bass drum tones of the great jazz era. The Vintage Bomber's cork center is wrapped with a soft and puffy synthetic covering and is reminiscent in look, feel and sound to the original lamb's wool beaters from decades ago. Designed in collaboration with Otis Brown III.

Long Range Bomber
VBLRB

Same as the Vintage Bomber but with a longer shaft for larger bass drums.

"I popped this baby on my pedal and immediately fell in love with it. The beater is very well balanced and produces a smooth, soft, and boomy sound."

The Workout Pad is a hard rubber practice tool that provides a natural feel and rebound. Includes 8mm thread to mount on cymbal stand. The 8" diameter makes it convenient for travel. Perfect for the beginning drum student.

NOISE GUARD PADS

Noise Guard pads allow for quiet practice on your drum kit. Each pad is made from non-slip rubber that does not compromise a real sense of rebound. Noise Guards are available in pre-packs and individual sizes. Bass Drum Pad is one size fits all.

ACCESSORIES

Round out your drum kit with some of Vater's accessories. From Cymbal Polish and Grip Tape to Stick and Drink Holders, there's plenty of options to keep your drum kit in fine working order, and your trusty Vater sticks close by.

StickMate Tambourine

VSMT

You'll definitely want to add these to your stick bag! The StickMate Tambourine and Shaker models slide right on to your stick, brushes and mallets to give you added sound effects while playing. They're made of lightweight polymer and the low profile won't interfere with your playing. There's a cut out in the handle for your thumb to rest in and contact the stick. You can easily put it on and take it off, or tape it on to the grip for extended usage. Patent Pending.

StickMate Shaker

VSMS

"Back Pack" Cymbal Bag

VCYBB

A heavy duty bag that features comfortable shoulder straps, soft cymbal dividers and a large rectangular outside pocket that is perfect for storing your stick bag and other accessories.

Slick Nut

VSNB

Unlike the traditional wing nut, the Slick Nut doesn't need to be threaded on or off and won't loosen or fall off while you play. Simply hold in the fastening button, put Slick Nut on cymbal stand to desired tightness and release button. The Slick Nut can also be used as a theft deterrent by simply tightening the hex set screw on the side of the body. This makes the Slick Nut non-removable, a great feature for drummers who have to leave their drum kits unattended for a period of time.

Slick Nut Skull

VSNSKULL

Slick Nut Skull has the same features as the original Slick Nut but with a molded Skull body design and Glows in the dark.

The Slick Nut comes in 8mm, the most common thread size for cymbal stands, with top cymbal felt already attached. Hex key included. Patent #5785480

Pink Stick Bag

VSBPINK

Vater's new pink stick bag features an all-over style print. Features 2 large outside pockets, with multiple pockets and pouches inside for tons of accessory storage space. Stick storage space is divided into 2 large sections and includes Velcro straps for hanging on floor toms.

Stick Bag

VSB1

A tough nylon bag that will keep you well stocked and organized. Includes velcro strips for secure placement on drums and an adjustable shoulder carrying strap.

Marching Mallet Bag

VMMB

Sturdy nylon bag with 4 large pockets for storing many pairs mallets. The tapered bag design helps prevent mallet heads from bunching together. Includes zipper pocket inside and a large pocket on the outside for storing sheet music.

Single Pair Stick Holder

VSHS

Feature a unique clamp-style fastening system, adjusted by an easy to turn knob. Depots on both the Single Pair and Multi-Pair Holders are adjustable for infinite angle adjustment of the sticks. Because of the fastening system, you won't find Vater's Stick Holders falling off your cymbal stands, which is a very common problem with other brands' Stick Holders.

Multi-Pair Stick Holder

VSHM

Drink Holder

VDH

Vater's Drink Holder features the same metal design and fastening system as their popular stick holders for supreme durability. The Drink Holder has an inside diameter of 3 1/2", large enough for most drinks, cups, and sports bottles and securely fastens to cymbal stands with an easy-to-turn knob.

Tech Pack

VTP

A "first-aid" kit for drummers. It contains the essentials to keep your drum kit up and running through the toughest of gigs. Includes: 1 Drumkey, 6 Snare Drum Strainer Cords, 2 Hi-Hat Clutch Felts, 6 Cymbal Felts, 4 T-Style Wing Nuts, 10 Tension Rod Washers, 1 Bass Drum Head Patch

Professional Drumming Gloves

Medium - VDGM Large - VDGL
Extra Large - VDGXL

Synthetic leather with a breathable mesh backing and elasticated panels on the sides of the fingers. This combination provides great flexibility, fit and improved ventilation to assure maximum comfort while performing. Vater's gloves help protect hands from blisters without compromising natural feel and sensitivity.

Grip Tape

Gray - VGTG Black - VGTB
Red - VGTR White - VGTW

Having trouble holding on?...our linen based Grip Tape is durable, absorbent and dries quickly, while offering a very comfortable grip. Comes in White, Black, Red and Grey colors and is re-usable. Each package contains 4 rolls, which is enough to wrap at least 2 pairs of sticks depending on stick length/diameter and how much you overlap the tape while wrapping. Each roll contains 2 end tapes for extra security on the stick.

Stick & Finger Tape

White - VSTW Blue - VSTBL Red - VSTR
Black - VSTBK Green - VSTG

Vater's self-cohesive tape helps improve grip and prevent hand fatigue, while still allowing a sense of "feel". Each roll is 1 inch wide by 30 feet in length. One roll will wrap approximately 5 pairs of sticks.

Marching Stick Holder

MV-SH

Attaches to snare drums with adjustable Velcro straps. Made from tough nylon, it provides easy access for quick stick changes. Also great for use on traditional drumset.

Ear Plugs

VSAS

Ear Protection for all musicians. Includes two filter styles for different levels of hearing protection. Also includes metal container for safe storing when not in use.

Cymbal Polish

VCP

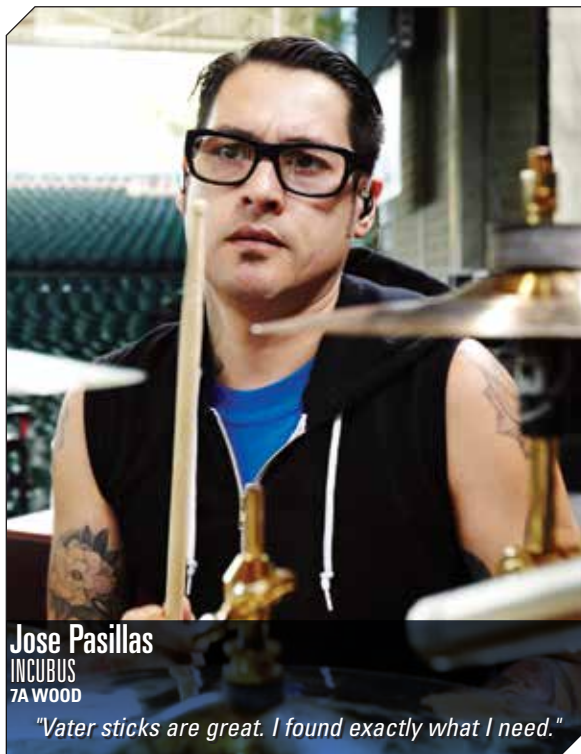

An easy-to-use liquid formula that quickly removes tarnish and dirt. It brightens and protects all brands of cymbals in natural or brilliant finishes. Also great to use on copper, brass, chrome aluminum and stainless steel.

Drum Polish

VDP

Vater's Carnauba enriched and anti-static formula cleans and protects any drum shell finish. It will give your drums a protective shine every time without leaving behind a waxy build-up.

MARCHING VATER

Marching Vater sticks and mallets are designed to exceed the need of today's marching percussionist.

- A complete selection of implements that create any timbre at all dynamic levels and hand crafted quality combined to give your ensemble that winning edge.
- Fast and balanced implements that generate superior tone quality with unmatched projection and stadium filling volume.
- Strength and durability to withstand the rigors of daily rehearsals and dynamic performances.

MARCHING BASS DRUM MALLETS

Feature Hickory shafts with a taper at both ends for great balance and strength where it is needed, just under the super-hard felt head. That feature adds a bit more weight in the throw for a fuller sound. Available in 5 models to meet the needs of any size drum. Also available with a Puff-Fleece option.

 <p>MV-B1 Head Dia. 1 1/4" MV-B1 For 16"-18" drums</p>	 <p>MV-B2 Head Dia. 1 1/2" MV-B2 For 20"-22" drums</p>	 <p>MV-B3 Head Dia. 1 3/4" MV-B3 For 24"-26" drums</p>	 <p>MV-B4 Head Dia. 2 1/8" MV-B4 For 28"-30" drums</p>	 <p>MV-B5 Head Dia. 2 3/8" MV-B5 For 30" and larger</p>
 <p>MV-B1S Head Dia. 1 1/4" MV-B1S For 16"-18" drums</p>	 <p>MV-B2S Head Dia. 1 1/2" MV-B2S For 20"-22" drums</p>	 <p>MV-B3S Head Dia. 1 3/4" MV-B3S For 24"-26" drums</p>	 <p>MV-B4S Head Dia. 2 1/8" MV-B4S For 28"-30" drums</p>	 <p>MV-B5S Head Dia. 2 3/8" MV-B5S For 30" and larger</p>

MULTI-TENOR MALLETS AND STICKS

Multi-Tenor Mallets feature heavy gauge aluminum shafts with textured "non-slip" grips. Sticks feature Hickory handle with a longer taper for balance and speed.

 <p>MV-T1 MV-T1 Clear lexan head for full, ultra-staccato sound with great projection to cut through.</p>	 <p>MV-T2 MV-T2 Hard 1 1/4" head for fast close articulate sounds with a lot of control.</p>	 <p>MV-T2XL MV-T2XL Large 1 1/2" lexan disk. The larger hard disk allows the mallet to rebound from drum head to drum head quickly without contacting the rims. Great for articulating scraps, sweeps and windmills.</p>
 <p>MV-T3 MV-T3 Super-hard felt head for more legato sound on toms and cymbals.</p>	 <p>TENOR STICK L 16 1/8" • 40.95cm D .680" • 1.73cm MV-TS1N Featuring a distinctive nylon tip for crisp articulation and projection both indoor and out.</p>	

MARCHING STICKS

Fast, balanced and durable sticks. Designed for Snare or Tenor drums, indoor or outdoor. Each model has that great Vater feel.

 <p>MV2 L 16 5/8" • 42.23cm D .690" • 1.75cm MV2 A long taper with a round tip for quick response, solid feel and great control at all dynamic levels.</p>	 <p>MV7 L 17" • 43.18cm D .710" • 1.80cm MV7 Larger diameter stick with a barrel shaped tip for that full body sound. Featuring a longer taper for great balance and feel.</p>	 <p>MV8 L 17" • 43.18cm D .710" • 1.80cm MV8 A Medium taper adding a little extra weight in the shoulder and a rounded acorn tip to provide great rebound and a full sound.</p>
 <p>MV10 L 16 3/4" • 42.55cm D .625" • 1.59cm MV10 Long and sleek taper with a acorn tip. A versatile stick great for indoor, as a Junior stick or as an option for tenors.</p>	 <p>MV11 L 16 1/2" • 41.91cm D .635" • 1.61cm MV11 Scaled down for younger players or as in indoor option with rounder tip for fast articulation.</p>	 <p>MV13 L 17" • 43.18cm D .655" • 1.66cm MV13 A full, solid stick that tapers down to fast nylon tip. Great for a variety of uses from indoor, front ensemble accessory parts or fine cymbal articulation.</p>
 <p>MV20 L 16 1/4" • 41.28cm D .650" • 1.65cm MV20 A smaller stick in length, diameter and weight. A very controlled stick with a compressed balance. Great for indoor percussion applications, Tenor drums or warming up on a pad. Able to handle a wide dynamic range.</p>	 <p>3S L 17 1/4" • 43.82cm D .730" • 1.85cm Wood VH3SW Nylon VH3SN A very large and beefy field snare stick. With a large teardrop tip, it's great for the heavy player that are looking for volume and depth. Also available with a nylon tip for a crisper attack and defined cymbal work.</p>	 <p>Nightstick-2S L 17 1/4" • 43.82cm D .660" • 1.68cm Wood VHNSW Nylon VHNSN A smaller version of the 3S at just .660 diameter But still provides a solid feel. Available in wood and nylon tip for flexibility and wide range of use.</p>

"We could have chosen any stick to play, but we immediately chose Vater. Vater's quality, feel and durability is second to none. Forget the marketing and hype of the others and try out the Vater MV7's and MV2's. They have it all...great feel, rebound, weight, durability and they are easy to control. The MV7 has a long taper and a barrel tip that creates a great rebound and a bright cutting sound while the MV2 has a short taper with a round tip that promotes a heavy dark full sound. Vater and Boise State, a winning pair!"
-James Harrison (Boise State University)

MARIMBA MALLET

3 color-coded models feature hard rubber cores that produce a rich sonority. Satin finished birch handles with graduated sized heads and proportionate weights for effortless projection and great speed over the entire instrument.

RUBBER XYLOPHONE & ORCHESTRA BELL MALLETS

Designed for indoor, out-door, or concert settings. The shape of the mallet head is designed for optimum sound throughout the series.

VM-R1
VM-R1

The soft mallet creates a warm sound that is great for ambiance or soft passages in the music. A great mallet to use in legato passages, allowing the mallets to blend with the rest of the ensemble. It allows the tone of the instrument to speak without being lost. It is a great way to add the sound without the strong attack.

VM-R2
VM-R2

The medium mallet creates a full sound and is a great blend of attack and tone. The length of the mallet allows you to have the versatility to choke up or to hold the mallets further back for more leverage.

VM-R3
VM-R3

The hard mallet offers a clear and full sound with strong attack to the instrument without the sound sticking out of the blend of the ensemble.

TIMPANI MALLETS

Vater Timpani Mallets are considered the world's standard for sound, balance, durability and overall quality. Ten distinct models featuring straight and tapered Sugar Maple or hickory shafts give the serious percussionist the variety of tonal colors necessary for expressive performance on timpani, drumset or any percussion instrument.

T1
Ultra Staccato
VMT1

Hard felt produces clearest rhythmic timbre. Straight shaft.

T2
Staccato
VMT2

Medium hard felt produces strong articulation. Straight shaft.

T3
General
VMT3

Medium soft multi-purpose mallet. Straight shaft.

T4
Legato
VMT4

Soft felt for a rich timbre with a round attack. Straight shaft.

T5
Classical Staccato
VMT5

Medium hard felt produces strong articulation. Tapered shaft.

T6
Classical General
VMT6

Medium soft multi-purpose mallet. Tapered shaft.

T7
Classical Legato
VMT7

Soft felt for a rich timbre with a round attack. Tapered shaft.

Sizzle
Ultra Staccato
VMSZL

Ultra staccato mallet and drumstick all in one. Maple Blazer stick for light weight and warm cymbal sounds.

Sizzle Fusion™
Ultra Staccato
VSZLF

The classic Fusion, with a hard felt mallet head on the end. The smaller mallet head design won't interfere with your grip or playing. Round stick tip for bright cymbal tones.

Sizzle Fusion™ Acorn
Ultra Staccato
VSZLFA

Fusion Acorn model stick with a hard felt mallet head on the end. The smaller mallet head design won't interfere with your grip or playing. Acorn stick tip shape for a warmed and broad cymbal sound.

XYLOPHONE & ORCHESTRA BELL MALLETS

Selection of 4 models that provide the variety of tonal colors necessary for performance in any ensemble. Rattan handles are used for superior feel and durability.

ORCHESTRAL SNARE STICKS

Maple Snare Drum Sticks that are perfect for Orchestral and Pit playing.

Stephen Creighton Pipe Band NEW
L 16" • 40.64cm
D .765" • 1.94cm
VMPBSC-1

Stephen Creighton was a junior world champion at just 16 years old and currently holds 2 Drum Corps World Titles and numerous additional honors. He is a sergeant for the world-renowned St. Laurence O' Toole Pipe Band in Ireland. His Pipe band stick features a tapered handle and oval shaped tip for perfect contact on the drum head. These elements give a great balance and pitch on the Pipe Band high-tension snare drums.

Pianissimo NEW
L 16" • 40.64cm
D .635" • 1.61cm
VSMPIANW

Great for a variety of applications including Orchestral, Pit, and Jazz. Maple construction offers a lighter weight for a stick of it's size. Round tip delivers precise tones.

SD9
L 16 1/4" • 41.28cm
D .610" • 1.55cm
VMSD9W

Just over a 5B in the grip with an oval tip for a full sound.

Blazer™
L 16 1/4" • 41.28cm
D .610" • 1.55cm
VSMBW

Gentle taper to a triangular shaped tip. Excellent balance for intricate playing.

Concert
L 16 1/2" • 41.91cm
D .630" • 1.60cm
VSMCW

Slightly under a 2B in the grip with a refined round head for volume and attack. A big stick without a lot of weight.

Piccolo
L 16" • 40.64cm
D .640" • 1.63cm
VSMPW

2B style grip with a long and gradual taper to a small round tip for precision and clarity.

Where can you buy Vater?

Any music instrument store is capable of getting any Vater product you are interested in if they do not have it in stock. Please be sure to check out the Dealer list on vater.com for a store close to you.

Additionally, we have partnered with a select number of e-retailers that are now stocking every Vater product for immediate and easy purchase and shipping. Just select any product on vater.com and you will be given a list of BUY NOW retailers to choose from.

If you have any questions, comments or feedback for us, please let us know.

You can call Vater directly at 781.767.1877 or email us at info@vater.com
