

Clarinets

SE ARTIST MODEL

A Noble Instrument for the Discerning Player

The first woodwind instrument to bear the “Artist Model” name, a status reserved for only the finest custom models, now features even further refined body and tone hole designs that achieve improved pitch as well as consistent resistance and playability from the lowest to highest notes with lush, deep tone throughout. A flawless mechanism allows the player to concentrate fully on the performance.

Original badge

An original pink gold plated badge is instantly recognizable and exudes an aura of sophistication.

Bell, Barrel

The bell has been redesigned for a larger, fuller sound. The barrel is 10 mm longer than the CSGIII type, offering an ideal balance of resistance and playing feel and delivering more solid tone.

Pinkgold-plated

The key posts, joint hoops, and thumb tube feature elegant pink gold plating that contributes to distinguished appearance as well as detailed tone.

Low E/F correction key

Yamaha original intonation correction mechanism inspired by the Oehler system (German style) clarinet is available to control low E and F note. This system assures natural finger control, excellent feel and playability. (Photo: Left)

E \flat lever

A modified E \flat lever shape enhances playability. (Photo: Right)

Raised style tonehole

The D/A tone hole has a raised edge that makes it easier to produce clear, high-quality tone.

CSGIII Series Reinventing the Clarinet

Yamaha reanalyzed and reevaluated literally every single design specification. New bell, barrel offer a tone of breathtaking richness and depth. The sound is warm yet has a clear focused center surrounded by a wealth of overtones, resulting in extraordinary beauty and expression.

YCL-CSGIII L

Custom CS G

■ Bell and Barrel

Slightly plump barrel and thick-walled bell produce a deep tone with rich resonance.

■ E \flat lever

An E \flat lever is adopted as a standard, along which the entire mechanism is totally re-designed as well.

■ Pads made of cork and leather

Cork pads and leather pads are optimally placed to maximize on their tonal quality, touch and functionality.

■ Optional low E/F correction key

Yamaha original intonation correction mechanism inspired by the Oehler system (German style) clarinet is available to control low E and F note. This system assures natural finger control, excellent feel and playability.

■ Optional Hamilton plated key

Hamilton plating is an alloy plating that gives the tone color with warmth and clarity. For Hamilton plated key, add "H" to the model.

VR Series Clarinets

The VR series clarinet has been carefully refined to give players unrivalled freedom of expression. A number significant changes have been made to the instrument's design allowing Yamaha to deliver a clarinet that meets clarinetists' desires for a higher standard of clarinet. Its beautiful tone, rich expressive capabilities throughout the dynamic range, and a tone with exceptional presence, Yamaha's VR series sets new standards in professional clarinet craftsmanship.

■ C#/G# Key

Attention to detail was paramount when re-designing the VR series and by making the C#/G# key 2 mm longer, the touch and playability have been greatly improved.

■ Barrel Shape

The traditional barrel shape of the VR series enhances the playing experience giving players a well-balanced response, and perfect resistance. The elegant new 'R' logo on the barrel emphasises this beautifully refined instrument.

■ Bell Shape

The traditional bell shape without scallop chamber achieves tone with superb presence and a focused core.

■ Adjustable Thumb-Rest with Strap Ring

The adjustable thumb rest allows players to find the most comfortable setting. The addition of a strap ring gives players the option to distribute the weight of the instrument and relieve some of the strain of holding the instrument.

■ Thick Key Plating

A thick key plating means that the VR series has rich expressive capabilities, particularly when played loudly.

■ Durable Leather Pads

Durable leather pads are used for their rich tonal quality with the additional benefit of giving players a buzz-free playing experience.

Custom
CS
VR

The YCL-CSVR features a traditionally shaped barrel and bell that contribute to a solid sonic presence. Thick key plating and durable leather pads further add to the instrument's rich, luxurious tone.

Professional Model 650

The 650 is an excellent alternative for those who are serious about their clarinet performance but need to watch their budget. The specifications of its bell, barrel, toneholes and other features are very close to those of the Custom SEV model, so its sound is warm, round, and deeply resonant. Made of carefully select and seasoned Grenadilla wood and boasting an enormous amount of handcrafting and hand finishing, the 650 features tapered toneholes which are undercut by hand for precise intonation and superior tonal balance. It also features beautifully sculpted keys whose touch has been regulated by master artisans for perfect balance.

Adjustable thumb-rest for comfort and endurance.

All Yamaha B \flat and A clarinets are available with an E \flat lever.

Intermediate and Student Models YCL-450/255

When designing the YCL-450 Series, we conceived it as an instrument that a player just starting out, would want to continue playing well into the future. These are all Grenadilla instruments designed with the know-how gained through years of experience crafting professional level instruments.

The YCL-450M additionally features our “Duet+” treatment applied to the instrument bore making the instrument more durable and less susceptible to the effects of humidity and temperature.

The YCL-255S combines state-of-the-art production expertise with high-end Yamaha clarinet features. The result is an outstanding entry-level instrument that delivers a warm, resonant tone that is remarkably similar to that of a wood clarinet. It features an ABS resin body with a matte finish that imitates that of a wood clarinet and an adjustable thumb-rest with a neck strap ring that allows for even those with small hands to easily hold the instrument.

Compact Case
The YCL-221IIS comes with a compact and lightweight case which stacks for easy storage, and offers extremely durable protection for the instrument.

Yamaha Professional Model bass clarinets, all of which are meticulously crafted by hand, give you a rich, warm sound with powerful projection and extremely accurate intonation. Each tonehole undercut is individually shaped for a beautifully balanced, remarkably responsive instrument. The YCL-621II can play down to low E^b, while the YCL-622II's range extends to low C.

And for the first time Yamaha is offering a matte finish ABS resin bass clarinet with a tone quality very

close to that of a professional wood model. It's the YCL-221IIS, whose design is based on that of our pro model YCL-621II. This instrument boasts several important new features, including a neck angle similar to that of a soprano clarinet, and a unique joint connector which makes it easy to assemble the main body—thus permitting a compact case.

Our E^b clarinets can be found in many of the world's top orchestras and feature accurate intonation and a rich resonant sound full of color and warmth.

An alto clarinet made of select Grenadilla wood. It is characterized by superb playability and a tone which is warm and full with powerful projection.

German Style Clarinets

Yamaha's Oehler clarinets are authentic German style instruments. They have been developed with some of Germany's leading musicians and feature a beautiful rich tone and excellent intonation.

While its comfortable playing position makes the YCL-457II the perfect entry-level instrument, its ability to blow without limit and highly expressive tone make it an excellent choice for intermediate players as well.

Adjustable thumb rest with neck strap ring for comfort and endurance. (YCL-457II and 458II)

Yamaha offers a high quality mouthpiece specially designed for our Oehler clarinets which ideally matches their tonal characteristics.
