Suitable for:

The JP by Taylor is perfect for advanced students looking for a pro-level specialist Jazz trumpet with that characteristic big brass sound. For trumpet players who are big fans of Taylor instruments, the JP by Taylor provides an excellent option for musicians looking for an affordable entry point into the Taylor brand.

Unique benefits:

Designed in collaboration with Taylor Trumpets, the JP by Taylor is designed to offer players the look and feel of a Taylor trumpet that out-performs its price tag. Made of many of the same professional components found on Taylor trumpets, the JP by Taylor features a handmade leadpipe by Andy Taylor and many heavyweight components including a heavy bell, heavyweight finger rings and top and bottom caps. Amado design water keys help to complete the attractive design. Made from a High Grade 80:20 Brass, the JP by Taylor trumpet provides players with a big, bright sound and is a very cost effective route into the Taylor family.

Supplied with:

The JP by Taylor is supplied with a JP851 Pro Double Trumpet case, JP 5C mouthpiece, Ultra Pure valve oil and maintenance guide.
