POWER OFF ON
LIGHT
REPEAT OFF ON
Pg Up 1 2 3 4 5 Pg Dn

1. Insert 2 AA batteries in the battery compartment.
2. Slide the **POWER** switch to the *ON* position.

If the Pedal has not been paired to a Bluetooth® device:

– see 2A or 2B for pairing instructions.

If the Pedal has been paired, the current mode light will:

– flash quickly while trying to reconnect.
– flash slowly when connected.

Step 2A - Pairing Pedal to a Bluetooth® enabled device

1. Press the **BLUETOOTH RESET** button - lights will flash sequentially.
2. In Bluetooth® settings, select " Premium Pedal". (Windows computer: Right-click the Bluetooth icon on the taskbar and select "Add Device").
3. Single light will flash slowly when connected.

Step 2B - Pairing Pedal to a computer without Bluetooth® (using dongle)

1. Purchase optional Bluetooth® dongle from www.pageflip.com
2. Insert the Bluetooth® dongle into a USB port.
3. Press **BLUETOOTH RESET** button – lights will flash sequentially.
4. Enable Bluetooth® on computer to be paired.
5. In the list of Bluetooth® devices on the computer, select "Premium Pedal".

Single light will flash slowly on Pedal when connected.

Advanced Features and Care

Sleep Mode

The Pedal will enter sleep mode after 30 minutes of inactivity – lights will turn off. Press a switch to resume normal operation (in a few seconds) – current mode light will flash slowly.

External Switch Jacks

The Pedal will allow your choice of external switches as an alternative to the built-in switches. See PageFlip website for many switch options.

External Switch Jacks

Mode Reset Button

External Power Supply

External Power Supply

Plug the USB cable into a USB AC adapter, such as those included with iPhone/iPad.

Low Battery

Light will quickly flash three times to indicate the batteries are getting low and should be replaced soon.

Auto Repeat Function

Slide the **REPEAT** switch to ON and Pedal will emulate pressing and holding a keyboard or mouse button.

Programmable Modes

• Download and execute Windows/Mac software from www.pageflip.com
• Press **MODE RESET** button to restore modes to factory settings
