

Intermediate oboe, Body material: Grenadilla, System: Simplified Conservatoire (semi-automatic octave system)

### **The Most Professional Intermediate Oboes Ever Made!**

The YOB-431 is made of top quality aged and seasoned grenadilla wood for a rich 'professional' sound. This is the same material as used on our Custom models and it has been carefully crafted in a similar manner. It features accurate intonation, a balanced response, and exquisite tone--truly professional quality at an intermediate model price. The 431 has a semi-automatic octave system and the keys are hand-adjusted by experienced artisans for superb playability.

### **Features**

#### **Key Design**

The ergonomic key design is based upon the Custom series for comfortable performance.

## Features

### Thumb-plate Key

A thumb-plate key is available by special order.

### Durable Mechanisms

Designed to be durable and maintenance-free, these oboes feature hinge rods rather than pivot screws on the low C and C# keys.
