# 800 SERIES DRUM THRONES

Mapex 800 Series Thrones are designed to be a solid foundation for any player. Rugged double-braced legs and threaded spindle construction provide ultra-reliable support and comfortable supportive seat features keeping any drummer feeling good through even the most intense playing.

## Ultra-Secure Clamp Mount

Compared to a traditional direct-contact seat mount, the 800 Series Ultra-Secure Clamp Mount features a 2-piece locking hinge which both disperses the drummer's weight evenly and offers greater stability.

## Spindle Lock

Once adjusted to the desired height, the Spindle Lock secures the spindle in place for a sturdy playing experience.

## Extra Large Slip-Proof Feet

Enlarged and extra durable slip-proof feet keep the throne in place on any surface.
