

GENEVA INSTRUMENTS are proud to present the new world class...

Symphony

HORN

The new Symphony Tenor Horn from Geneva has been designed to meet the demands of the modern day musician. We at Geneva have spent time developing a new bell and lead pipe to offer the musician ultimate sound and intonation. We have also added a new trigger system, designed on the mouthpipe bend and not the main tuning slide, thus giving accurate tuning. All of the trigger system can be removed, allowing the mouthpipe to be cleaned. The Geneva Tenor Horn brings with it style, class and an air of authority.
