

Marching Brass Catalogue

Why choose JP?

JP Musical Instruments has long been regarded as a specialist musical instrument supplier designing, manufacturing and distributing a wide range of brass & woodwind instruments.

John Packer started his woodwind and brass business nearly 40 years ago. From humble beginnings with a small woodwind repair shop in Taunton, Somerset, his reputation quickly grew. John was well known for his expertise and great customer service in the UK and across the world. Both a musician and trained oboe maker and repairer, he has since consulted on the design of instruments for a number of major manufacturers including Yamaha, Boosey & Hawkes and Schreiber. John has used his experience to create a multitude of features on the JP range of instruments which are now popular across the globe. This process is ongoing with regular trips to the factory to work with the technicians actually on the production line.

Our designers

Michael Rath

JP Musical Instruments has worked very closely with Michael to create a unique range of JP Rath Trombones and French Horns that draw on Rath's expertise and professional knowledge.

Paul Riggett

The JP Sterling range all feature a high level of specification including full construction from high grade 80:20 brass and include a Sterling design leadpipe ensuring a superior sound.

Richard Smith

All JP Smith-Watkins instruments feature an exclusively designed Smith-Watkins leadpipe and benefit from a wealth of fine-tuning due to the expansive knowledge of Dr Richard Smith and his team.
