Pearl HIGHLIGHTS & HISTORY

From our humble beginnings in 1946
to our worldwide network of drums and drummers over 70 years later,
Pearl's family owned-and-operated tradition of innovation and
personal service continue forward to give a percussive voice to every player.

HERE ARE SOME HIGHLIGHTS OF OUR OVER SEVEN DECADE JOURNEY:

April 2, 1946: Katsumi Yanagisawa starts Pearl with two employees in 300 sq. ft. factory in Sumida, Japan, making music stands and accessories.

1950: Recognizing an emerging market, Katsumi shifts focus to manufacturing drums.

1953: Pearl Musical Instruments enjoys rapid growth in Japan, expanding to over 30 employees for producing basic drum sets, marching and concert drums, and accessories.

1957: Katsumi's eldest son Mitsuo forms an export division to meet international demand.

1961: Pearl expands by building a 15,000 sq. ft. manufacturing facility in Chiba, Japan. Pearl World Headquarters remains in Chiba to this day.

1965: Pearl's long-range plan to increase in product variety and development includes a new series of professional drum sets, expanded worldwide distribution, and unparalleled support.

1966: President Series professional drums are launched in Japan. Their unique Phenolic shell design and sound catch the ear of touring pro's such as Art Blakey and JC Heard.

1973: Pearl expands drum production to a second 93,000 sq.ft. production facility in Taichung, Taiwan. Wood-Fiberglass hybrid drums are debuted, and Pearl USA opens in Nashville, TN.

1974: Crystal Beat seamless acrylic drums are introduced. Pearl USA welcomes a host of high-profile artists including Peter Criss, Louis Bellson, Ed Shaughnessy, and Larrie Londin.

1976: Pearl develops its first all Maple drum kit, the Giant Step, for the Japanese market.

1977: Peter Criss tours the Pearl drum factory in Chiba during KISS' first tour of Japan.

1978: Giant Step series expands with fiberglass-lined Maple drums, solidifying Pearl's reputation as a top percussive innovator. The Patented Vari-Set gearless tom holder is released.

1979: Pearl advances electronic percussion with the introduction of the Syncussion SY1 drum synthesizer.

1981: Pearl introduces its "Blues Flavour" series drums featuring 100% Birch shells.

1982: "Toto IV" is released with new Pearl artist Jeff Porcaro on the drums. Phil Collins debuts "In the Air Tonight" live behind his new Pearl all Birch kit.

1983: USA-made Criterion Marching Drums signal Pearl's first entry in marching percussion. The Free-Floating Snare Drum and the Jeff Porcaro-designed Pearl DR1 drum rack are launched.

1984: Innovation shifts into high gear at Pearl Taiwan with the production of MX, MLX, and GLX pro Maple drums. Export Series becomes the drum set choice of a generation of players.

1985: Pearl's Drum-X System presents the next phase of electronic drums.

1986: Pearl's first double bass drum pedal (P850TW) debuts along with 800 and 900 Series tour-grade hardware. Syncussion X electronic drums take e-synthesis percussion a step further.

1987: The biggest names in rock play Pearl as Prestige Custom (MLX Maple) and Studio (BLX Birch) are launched. Tommy Lee's "Spinning Drum Solo" defies gravity in arenas worldwide.

1988: Drummer Steven Adler drives Guns n'Roses from clubs to arenas with Pearl.

1989: Pearl's groundbreaking Zenithal Resonator (CZX) 8-ply thick Maple shells debut worldwide in stunning Champagne Birdseye finish, setting a standard as the next level in pro drums.

1990: Masters Series Maple (MMX) and Birch (MBX) drums raise the bar for the pro player. Pearl Corporation's expanded USA Headquarters in Nashville, TN open at its current home on Metroplex Dr. Pearl's first FFX Marching Snare drum sets a new standard for Field Percussion.

1992: Pearl hand percussion products begin under the Afro Percussion name.

1993: Session Series is launched.

1994: Forum Series debuts, offering more to the entry-level player than ever before.

1995: Export becomes the best-selling drum set of all time with over one million drums sold worldwide. Marvin "Smitty" Smith begins his 15-year tenure on "The Tonight Show."

1996: Pearl's 50th Anniversary Ltd. Edition Solid Maple snare, Signature snares for Chad Smith, Omar Hakim, J.R. Robinson, and Dennis Chambers, and Powershifter pedals are introduced.

1997: Masters Mahogany Classic (MHX) and Sensitone snare drums are developed.

1998: Pearl redefines the scope of customized drums with Masterworks. Symphonic snare drums introduced.

1999: Masterworks sets a new level in totally customized drums. OptiMount tom suspension system is developed. Pipe Band marching snares debut. New Sig. snares for "Smitty" Smith & Steve Ferrone.

2000: The Powershifter Eliminator's patented Interchangeable Cam System brings customized feel to bass drum pedals. The Pearl Drummer's Forum is launched to players around the globe.

2001: Pearl Percussion makes a grand entrance at NAMM '01. Tico Torres' custom U.S. Flag-painted Masters kit - played at the Concert for NYC with Bon Jovi - is auctioned to benefit 9/11 victim relief.

2002: More Signature Snare Drums from Ian Paice, Tico Torres, and Eric Singer. Eric and Tico (with KISS and Bon Jovi) play the closing ceremonies of the 2002 Winter Olympics. Pearl Music Europe's European Headquarters opens at its current location in the Netherlands.

2004: Masakatsu, the third generation of the Yanagisawa family, becomes Pearl CEO.

2005: Reference Series drums launch following two-years of sonic testing and win the Musikmesse International Press Award for Best Drum Set.

2006: Pearl artist Mike Mangini becomes the World's Fastest Drummer by breaking the world record for the most single-stroke hits (1,203) in one minute.

2007: Vision Series, the first drum sets from Pearl's new China facility, are launched.

2008: Masters (MCX) Maple's low price tag makes the professional drum kit attainable.

2009: The Demon Drive pedal takes bass drum pedal performance to new heights, wins multiple Music Industry awards.

2010: ePro Live, Pearl's electronic drum powerhouse, fuses real drum shells with TruTrac technology. Joey Jordison is voted "Best Drummer" by Rhythm Magazine. Mike Mangini joins Dream Theater.

2011: Thin Ply shells are introduced; both can be found on the Reference Pure Series drums and the Masters Premium Legend Drums.

2012: Session Series returns with a more affordable pro drum package.

2013: Pearl brings back the best-selling drum set of all time with a completely redesigned Export Series kit. The Demon Chain pedal and redesigned Advanced Hardware System stands debut.

2014/15: A true revival of the 1970's with the introduction of the Wood Fiberglass sets and the Crystal Beat Series. First in USA and in Europe in 2015.

2016: The Decade Series with 100% all Maple shells was launched and Eliminator Redline pedals were introduced. A new Dennis Chambers signature snare drum debuted.

THE CHOICE IS YOURS.

PEARL HAS BEEN CRAFTING PERCUSSION INSTRUMENTS DESIGNED TO FIT THE NEEDS OF EVERY DRUMMER SINCE 1946. NO MATTER WHERE THE PLAYING ROAD TAKES YOU, PEARL HAS THE RIGHT DRUM SET OPTIONS TO MAKE YOUR VOICE HEARD AT EVERY STEP ALONG THE WAY.

MASTERWORKS

CUSTOM CRAFTSMANSHIP FOR THE MASTER PERCUSSIONIST.

The dream destination for the Pro drummer that wants true control. Every element of the kit's sound, look, and feel is player-selected from a limitless palette of custom options. Hand-crafted to heirloom perfection for the ultimate custom drum statement.

PAGES 8 - 15

REFERENCE

SONICALLY SELECT DRUM PERFORMANCE.

The best custom options from the Masterworks realm, preselected to draw the best in sound and playability from each drum. Optimum pro performance for high-volume, high-capacity playing presence.

PAGES 16 - 17

WOOD-FIBERGLASS

VINTAGE HYBRID, MODERN PERFORMANCE.

Saluting the sound that defined an era, a true Pearl original returns with our premium 7-ply Kapur shell, fused with a layer of hand-applied Fiberglass. The result is a unique combination of warmth, projection, and focused decay.

PAGES 26 - 27

CRYSTAL BEAT

THE ORIGINAL SEAMLESS ACRYLIC DRUM SHELL.

Originally introduced in 1973, Crystal Beat returns with unparalleled tonal and visual clarity and punch for a new breed of power players. Precision-molded in a variety of available sizes and finishes for an unmistakable drumming signature.

PAGES 28 - 29

REFERENCE PURE

UNRESTRICTED TONAL RESPONSE.

The sonically-select Reference formula in a thin drum shell format. Unrestricted tone for close-field articulation with a warm, resonant vibe. Ideal for controlled environments and concert settings where extended tuning range is paramount.

PAGES 18 - 19

MASTERS MAPLE RESERVE

A CLASSIC FORMULA FOR SONIC GREATNESS.

Combining a thin 4-ply Maple shell with 4-ply re-rings delivers an essential tonal combination of rich lows and wide-open resonance. Lively sonic character and a natural choice for the most discerning musical pallet.

PAGES 20 - 21

DECADE MAPLE

A DRUM KIT 10 YEARS IN THE MAKING.

Pearl's 70 years of drum craftsmanship culminate with the kit you're ready to step up to. With 5.4mm Maple shells, pro-level features, and gorgeous lacquer finishes, Decade elevates your performance at a price that was previously impossible.

PAGES 30 - 31

EXPORT / EXPORT LACQUER

THE LEGENDS OF TOMORROW, PLAY EXPORT TODAY.

The kit that spawned a thousand drumming legends is back for a new generation. Available in wrapped or lacquer finishes, Pearl's Export is built better than ever to give a strong beginning to the student drummer's lifetime of play.

PAGES 32 - 33

MASTERS MAPLE COMPLETE

THE MASTERS SHELL COMES FULL CIRCLE.

The road-proven combination of warmth, power, and tonal purity that made Masters a legend shines forward. Pearl's new EvenPly 6-layer premium Maple shell, 2.3mm Superhoops, and an improved price tag make Masters a must for the touring pro.

PAGES 22 - 23

SESSION STUDIO CLASSIC

THE ESSENTIAL SOUND OF STUDIO GROOVE.

Classic, articulate, controlled. The punchy attack and tonal clarity of Session series' influential sound is here to stay with Kapur/Birch hybrid shells, traditional sizes, and a host of premium lacquer finishes.

PAGES 24 - 25

MIDTOWN

BIG GIG, SMALL RIG, HUGE SOUND.

For full-size play in a smaller footprint, this ultra-portable, complete shell pack lets the gigging drummer on the move sculpt rich, powerful grooves. Essential gear for the metropolitan player.

PAGE 34

ROADSHOW

IT'S YOUR TIME TO PLAY. START THE RIGHT WAY!

The rhythm is in you; the right gear is essential for setting it free. The Roadshow complete drum set package comes with everything needed (drums/hardware/cymbals/extras) to start your rhythmic journey to the big time.

PAGE 35

THE MASTERWORKS PHILOSOPHY: TRUE CHOICE FOR THE PRO DRUMMER SINCE 1999.

Pearl's Masterworks offers more custom choices for the pro drummer than any other drum company. Every element of the kit's sound, look, and feel is player-selected and handcrafted to heirloom perfection for the ultimate custom drum statement.

Sculpt the sound of your kit with a custom selection of shell plies from four premium wood types, or choose from one of Pearl's five pre-configured Sonic-Select Shell Recipes (detailed on pages 10-15). Virtually every shell diameter is available in customizable depths, thicknesses, and edges. Pearl's expanded shell hardware options and finishes further sculpt each drum's feel and performance.

Finally, our proprietary 31-step lacquer finish process is applied to each drum to your exacting specifications. Once your finish is approved, Pearl will deliver your custom crafted drum set in 90 days.

If you can imagine it, Pearl can build it.

SHELL MATERIALS

MAPLE

MAPLE

The perfect blend of tone, attack, and body.

- North American hardwood with rich, even grain.
- Ideal for general purpose applications.
- Equal tonal amounts of highs, mids, and lows

BIRCH

BIRCH

The precision choice for high-volume cut and power.

- Premium "white" wood with marbled, subdued grain.
- Excellent for stage and studio with boosted highs and mellow mids.
- "Built-in EQ" delivers articulate stroke with shorter, even decay.

MAHOGANY

AFRICAN MAHOGANY

Deep, powerful punch with dark, elegant tone.

- Porous African wood with rich, dark texture and grain.
- Boosted bottom-end perfect for controlled rooms/studios.
- Beautifully smooth midrange sustain with high-end roll-off.

GUMWOOD

GUMWOOD

Explosive projection and increased volume.

- A medium-density wood that produces explosive tone.
- Ideal as a core-ply; enhances tonal character in surrounding plies.
- Projects with substance and power as an interior/tone-ply.

COMPOSITE

COMPOSITE SHELL

The Ultimate Hybrid.

- Combining wood types blends each material's sonic character.
- Cross-laminated two-ply panels are hand-selected for proper density, grain consistency, and colour.

CUSTOM SHELL INTERIORS

Expand the Tonal Spectrum.

- *Artisan Veneers* – Any of Pearl's exotic exterior hardwoods can be added to the inner ply.
- *Fiberglass* – A thin interior layer of hand-applied fiberglass adds volume and accelerates decay.
- *Carbonply* – Fusing a thin interior layer of carbon fiber maximizes high-frequency response.

BEARING EDGE

Nothing influences a drum's overall response more than the bearing edge. Masterworks offers a choice of five sonically-tested edges, each of which can be configured individually by drum, application, and shell side.

STANDARD 45°

Provides the perfect blend of attack and warmth.

OUTER 60°

Pulls brighter overtones from darker shells and increases punch.

INNER 45°

Edge apex focused to the inner shell plies for controlled tonal response.

ROUNDED 45°

Greater head-to-shell contact boosts mid to high frequencies.

FULLY ROUNDED

Boosts mid-to-low range response and reduces decay.

ULTIMATE CUSTOM

YOU'VE ARRIVED.
IT'S TIME TO TELL THE WORLD.

Masterworks is your crowning achievement; a timeless heirloom statement crafted to elevate the custom drum concept to a whole new level.

SHELL THICKNESS PRECISION TONAL CONTROL

THIN (4-ply, 5mm with 4-ply Reinforcement Rings)

Responsive tonal sustain for the near-field environment.

MEDIUM (6-ply, 7.5mm)

Ideal for general purpose play. Excellent projection with full-bodied tonality.

THICK (8-ply, 10mm and 10-ply, 12.5mm)

Maximum cut and projection with subdued sustain.

SUPERIOR SHELL TECHNOLOGY:
ASSURES MANUFACTURING EXCELLENCE. EVERY TIME.

HARDWARE FINISH & LUG OPTIONS

Custom configure a choice of five different plating options to any one of our precision tuning lugs, hoops, and drum hardware.

EUCALYPTUS

CARBONPLY

THE FULL SPECTRUM OF MASTERWORKS CHOICE IN SHARP FOCUS

Drawing from two years of research and artist testing, Pearl presents Sonic-Select Shell Recipes: five distinct, extensively tested drum formulas each fine-tuned for their given performance application.

By filtering the nearly-endless array of custom options in the Masterworks spectrum down to specific shell, edge, and hardware fusions, each Recipe creates a truly unique sonic signature; clearly defining the Masterworks custom drum experience for the discerning professional.

STUDIO (pg. 11)

A hard/soft layered wood combination in a thin 6-ply shell, crafted to fully capture every nuance of the drummer's performance with tonal clarity.

HERITAGE (pg. 12)

Recalls a classic age in drum-making by balancing the power of Maple with the warmth of Mahogany for enhanced lows and fat top-end slap.

URBAN (pg. 13)

This totally unique thin-shell combination of Birch, Gumwood, and Maple sculpts a vibrant, powerful voice for the metropolitan drummer.

STADIUM (pg. 14-15)

Brings the classic elements of Pearl's genre-defining CZX shell into the modern playing field, focusing on volume and power for the touring stage.

MODERN DRY (pg. 14-15)

Represents new ground in Masterworks; focusing on quick, top heavy articulation with controlled low end for today's multifaceted beat creator.

MASTERWORKS STUDIO KIT
IN RED SATIN OVER TAMO WITH NATURAL HOOPS
WITH CHROME HARDWARE

SOUND

Speaks with pure midrange projection and unique bottom-end. Its articulate, clean tonality commands a vintage flavor with modern flair. Higher tunings also make it exceptional for the intricacies of Jazz, Orchestral, and other technically subtle performance.

SHELL

Even 6 ply, 4 ply Maple Outside and 2 ply Gumwood inside - A thin combination of a hard exterior with milder tonewood, Studio's shell is designed to vibrate freely for explosive mid-to-low range warmth.

EDGE

Outer 60° - Helps the thinner shell speak with brightness and power without sounding harsh.

HARDWARE

MasterCast Hoops - Gives each drum added weight for tonal body, and increases volume in each stroke, particularly in rim-shot hits and high-velocity play.

CL BRIDGE LUGS

A Pearl staple, the CL bridge lug gives the drum a classic look and contacts the shell in separate points for the right amount of vibration control. CL-100 / 250

MASTERWORKS *Masterworks*

SONIC-SELECT SHELL RECIPE: HERITAGE

NEW!

Growling and robust in any live or recording setting, the thin Heritage shell speaks with extended, even decay; yet projects with authority in a variety of styles; from Funk to Guitar Rock, Country to Blues.

SHELL

4 Ply, 2 Ply Maple outside and 2 Ply Mahogany inside with 4-ply Maple Reinforcement Rings – Responds like the rumble of a classic roadster; a classic combination of midrange projection and boosted low-end thunder.

SOUND

Produces thunderous sub-bass frequencies with exceptional sustain and subtle projection.

MASTERWORKS HERITAGE KIT
IN GLOSS TAMO RED REVERSE-BURST
WITH NATURAL PINSTRIPE AND NICKEL HARDWARE

EDGE

Standard 45° – Pearl's traditional edge draws added projection and resonance in this darker-toned shell.

HARDWARE

FatTone Hoops – Lighter in weight but never lacking in rigidity. Respond similarly to the original "stick-chopper" of the vintage era with added tuning stability. Excellent for drawing extended sustain.

STL SWIVEL LUGS

With less direct shell contact than any other Pearl lug, this little wonder features a pivoting brass tension casing that guarantees even tuning and reduced resistance to shell vibration. STL-100 / 200

Each drum projects loudly on the top-end and fills the bass frequencies with thunderous, shaking low-end. Ideal for Pop, R&B, and Gospel. This is Masterworks for a new breed of top players.

SHELL

Even 6 ply; 2 Birch / 2 Gumwood / 2 Birch with 4-ply Maple Reinforcement Rings (8 ply Snare Drums; 2 Birch / 4 Gumwood / 2 Birch). Perfectly captures each stroke with articulate high-volume punch and quick, even decay.

SOUND

Speaks with an urgent sonic signature, from arenas to clubs to the modern sanctuary.

MASTERWORKS URBAN KIT
IN BLACK MIST OVER ZEBRAWOOD
WITH BLACK NICKEL HARDWARE

EDGE

Rounded 45° on Toms (Fully Rounded Edge on bass drums, standard 45° on snare drums). Helps boost low-end frequency with increased shell contact along the head collar. Bass drums feature subdued sustain and maximized low-end power.

HARDWARE

2.3mm Superhoop II Hoops – Made to withstand heavy play without an undue limit on the performance across the tuning range.

SWIVEL TUBE LUGS

This medium-weight STL swivel lug with pivoting tension casing increases projection and reduces unwanted overtones in shell resonance. STL-150 / 300

MASTERWORKS *Masterworks*

SONIC-SELECT SHELL RECIPE: STADIUM

NEW!

A total solution for heavy rock, metal, and intricate progressive grooves. Rises above high stage volume with a full spectrum assault.

SHELL

10 ply Bass Drums and Floor Toms, 8 ply Maple Toms and Snare Drums. A thick shell for maximum power and drive.

EDGE

Outer 60° – Increases brightness and power and reduces unwanted overtone.

HARDWARE

2.3mm Superhoop II Hoops on Toms, MasterCast on Snare – Made to withstand heavy playing without limiting the performance across the tuning range.

BRL SWIVEL LUGS

Pearl's revolutionary swivel lugs assure the ultimate in head seating and tuning integrity. BRL-100 / 300

SOUND

Full-bodied attack across the midrange with focused low-end thunder. Combined shell and hardware weight create powerful, centered sonic presence.

MASTERWORKS STADIUM KIT
IN FLAME MAPLE NATURAL BURST WITH NICKEL HARDWARE

MASTERWORKS *Masterworks*

SONIC-SELECT SHELL RECIPE: MODERN DRY

NEW!

Classic tonality for the modern independent studio that speaks with a subdued, natural flavor. Excellent for driving Acoustic stylings and everything from Electronic Dance to Songwriter Pop.

SHELL

2 ply Maple outside and 2 ply Gumwood inside with 4 ply Mahogany Reinforcement Rings. A thin shell with softer ring and tonewood that adds focus in the bottom end.

EDGE

Inner 45° – An unconventional edge that contacts the head beyond the shoulder. Focuses the apex to the inner shell plies and increasing control in low tunings.

HARDWARE

MasterCast Hoops – added weight for increased volume and controlled sustain on each drum.

STL SWIVEL LUGS

The pivoting brass tension casing in the two-point STL lug assures accurate tuning, decreased shell weight, and increased low-end power. STL-100 / 200

SOUND

Each drum produces a fat, centered tone that blends well in play. The shell's unique Maple/Gumwood/Mahogany combo adds control and restraint.

REFERENCE SERIES

SONICALLY SELECT DRUM PERFORMANCE.

Of the many Reference Series snare drums available, our Reference Series wood snare drum uses 6 inner plies of Birch united with 14 outer plies of Maple for a staggeringly thick 20 ply shell. The 45 Degree bearing edge brings all 20 plies to the party in a highly focused sweet spot. This projects the volume that you would expect from such a thick shell without losing sensitivity or articulation.

REFERENCE 20 PLY
Snare Drum

Bridge style lugs and floor tom leg brackets provide maximum resonance with minimal shell contact. Pearl's revolutionary BRL lugs assure the ultimate in head seating and tuning integrity. The unique swivel function assures maximum resonance and sustain.

BLACK NICKEL
HARDWARE***
#832 SAPPHIRE BLUE SPARKLE

Our telescoping bass drum spurs feature a high-grip rubber tip. The tip can retract and allows a recessed spike to be exposed for maximum "bite" on carpeted surfaces.

REFERENCE SERIES: THE STANDARD
TO WHICH ALL DRUMS ARE JUDGED.

Reference Series Drums are the product of what became a two and a half year search for harmonic perfection. Like keys on a piano, each drum in a kit should combine to create a singular instrument without losing its own sonic signature. With this concept in mind, Pearl explored the many options in the Masterworks crafting process to find the perfect combination of shell material, thickness, and edge profile for each individual size and type of drum. The result is a collective of individually-engineered drums dialed-in to the best sonic character for that drum's intended voice. Truly, the *reference standard for quality and sound performance*.

All Reference snare drums feature Pearl's SR-1000 Glide-Lock Strainer, which includes a locking throw off lever and tension knob that won't loosen no matter how hard you play. Low-friction technology permits smooth gliding action for ultra quiet, super precise motion.

US Patent #7220905, #7301087, #7365256

THE REFERENCE RECIPE

All drums are not created equal. So why make them all with the same wood type and edge? Reference toms, snares, and bass drums each have a different 'recipe' for their specific application and voice.

THE REFERENCE RECIPE	SHELL TYPE	BEARING EDGE	SONIC OUTPUT
8" and 10" Toms	Maple(4)/Birch(2) 6-ply (RF 7.5mm / RFP 5.4mm)	Rounded 45°	Extra cut and projection for high-note pitch
12" Toms	Maple(6) 6-ply (RF 7.5mm / RFP 5.4mm)	Rounded 45°	Transitional mid-note; blend of warmth and cut
13" Toms	Maple(4)/Mahogany(2) 6-ply (RF 7.5mm / RFP 5.4 mm)	Rounded 45°	Top-end slap with added low/bottom end
14" and 15" Toms	Maple(4)/Mahogany(2) 6-ply (RF 7.5mm / RFP 5.4 mm)	Fully Rounded	Bracing low-end with extended sustain
16" Toms	Maple(2)/Mahogany(4) 6-ply (RF 7.5mm / RFP 5.4mm)	Fully Rounded	Bracing low-end with extended sustain

THE REFERENCE RECIPE	SHELL TYPE	BEARING EDGE	SONIC OUTPUT
14" Floor Toms	Maple(4)/Mahogany(4) 8-ply (RF 10mm / RFP 7.2mm)	Fully Rounded	Bracing low-end with extended sustain
16" and 18" Floor Toms	Maple(2)/Mahogany(6) 8-ply (RF 10mm / RFP 7.2mm)	Fully Rounded	Bracing low-end with extended sustain
18" and 20" Bass Drums	Maple(2)/Mahogany(4) 6-ply (RF 7.5mm / RFP 5.4mm)	Fully Rounded	Enhanced sub-frequency response
22", 24", 26" Bass Drums	Maple(2)/Mahogany(6) 8-ply (RF 10mm / RFP 7.2mm)	Fully Rounded	Booming bass tone with articulate punch

*Sold Separately **See full Colour Chart on back cover for all Special Order Finishes.
***Nickel, Black Nickel, Black Chrome, and Gold hardware available at premium charge.

NICKEL HARDWARE***
#835 AGED HONEY BURST

REFERENCE PURE SERIES

UNRESTRICTED TONAL RESPONSE.

REFERENCE PURE SPECIFICATIONS

SHELLS	Low Mass Evenply Maple, Birch & African Mahogany
SNARE	6 Ply Matching 13 x 6.5, 14 x 5, 14 x 6.5*
FINISH	Super High Gloss Lacquer / Lacquer Sparkles**
HEADS	Remo Clear Emperor Tom, Powerstroke3 Bass
TOM MOUNTS	Aluminum OptiMount Suspension System
TOM ARMS	Sold Separately
HARDWARE	Chrome, Nickel, Black Chrome, Black Nickel, or Gold Plated
HOOPS	Low Mass FatTone Hoops
LUGS	Low Mass STL Swivel Tube Lugs

*Sold Separately

Reference Pure snare drums feature ultra-thin "Evenply" shells with 4 outer plies of Maple for a smooth, balanced sound with 2 inner plies of Birch for extra cut and projection. The 45 degree bearing edges provide superb sensitivity and pinpoint articulation.

THE REFERENCE PURE DIFFERENCE:

- Ultra-thin "Evenply" Shells (About 30% thinner than Reference) resonate freely with the lightest touch. We reduced the tom thickness from 7.5 to 5.4mm thick and floor toms and bass drums from 10mm down to 7.2mm.
- Shell hardware mass decreased by 30%, allowing better vibration transference to the shell from the head.
- 1.6mm FatTone Hoops' exclusive hemmed/welded edge (US Pat. #8367917) gives increased strength to low-mass design.
- STL Swivel Tube Lugs allow for increased resonance, minimal shell contact, and precisely aligned, no-bind tuning.

Reference Pure proudly builds upon the Masterworks philosophy started by Pearl's original Reference Series Drums.

** Stock finishes. See full Colour Chart on back cover for all Special Order Finishes.
***Nickel, Black Nickel, Black Chrome, and Gold hardware available at premium charge.

BLACK NICKEL HARDWARE***
#831 MATTE OLIVE BURST

#833 EMERALD SPARKLE
WITH CHROME HARDWARE

Using the same shell composition formula as the original (number and type of wood plies, task-specific bearing edges, etc.) the highly resonant qualities of Reference Pure's lower-mass, thinner shell assure an uninhibited shell-focused tonality that responds immediately in any playing environment.

Pearl's SR-1000 Glide-Lock Strainer's locking throw off lever and tension knob assures worry-free, slip-free performance from all Reference Pure Snare Drums. (US Patent #7220905, #7301087, #7365256.)

Aluminum OptiMount Suspension System mounts to the tension rods and are insulated from metal to metal contact.

Air Suspension Rubber Tip (US Patent #5881981) isolates the tom from the floor, preventing tonal choke and increasing resonance.

Pearl's Golden Ratio Air Vent (US Patent #7485791) is precision placed on toms to increase low-end response, while low-mass, low-contact STL lugs and floor tom brackets allow for increased shell sustain.

MASTERS MAPLE RESERVE SERIES

A CLASSIC FORMULA FOR SONIC GREATNESS.

Utilizing premium North American Maple veneers from our exclusive Masterworks supply vault, the thin, 4-ply shell configuration (with reinforcement rings) in new Masters Maple Reserve delivers a smooth, open tonality with classic resonant shimmer. All Masters drums feature Pearl's proprietary 38-step lacquering process and showcase a classic, vintage-flavored style as distinctive as the shells they adorn.

THE MASTERS LEGACY.

Featuring 4-ply Maple reinforcement rings, Masters Maple Reserve is a natural choice for the most discerning musical pallet. This classic integration increases shell stability and tonal control, delivering rich, sustained lows and lively sonic punch.

MASTERS MAPLE COMPLETE SERIES

THE MASTERS SHELL COMES FULL CIRCLE.

Pearl's Masters Series has always been synonymous with the very best in professional instruments for the touring drummer. In creating new Masters Maple Complete drums, Pearl has crafted a refined representation of Masters' 25 year history in one total package.

EVENPLY-SIX SHELL:

This premium, six layer North American Maple shell incorporates reduced-thickness, cross-laminated plies. This 28% thinner shell produces the tonal purity and increased resonance of Pearl's legendary Masters MMX, while projecting with the vibrant power of the thicker MRX series.

SP-30 Spurs

Insulated Die-Cast Bass Drum Claws

Sleek Bridge-Style CL Lugs

To maintain optimal resonance and articulation, Masters Maple Complete features triple-flanged SuperHoop II tom and snare hoops. Professional hardware touches include SP-30 spurs, LG-40 floor tom legs, insulated die-cast bass drum claws, and our sleek bridge-style CL lugs for reduced shell contact and improved shell performance.

SESSION STUDIO CLASSIC SERIES

THE ESSENTIAL SOUND OF STUDIO GROOVE.

Fit for virtually any style of music or venue, Session Studio Classic revives the performance-vibe of the original, with fresh, groove-inspiring tonal flavor.

WILL KENNEDY
THE YELLOWJACKETS

The nucleus of the Session Studio Classic sound is the blending of Kapur wood's warm, resonant qualities with the controlled brightness of Birch. Topping this timeless combination with a perfect 45° bearing edge creates a shell with powerful attack and a beautiful tonal decay.

Session toms and snare drums feature rigid yet low mass SuperHoop II Rims for ease of tuning and optimum resonance. All drums feature classic Session 'RL' Series lugs.

Pearl's OptiMount Suspension System attaches to the tom's tension rods and provides the ultimate in stability, while at the same time allowing unrestricted resonance through the shell.

SSC924XUP/C
#110 SEQUOIA RED

TERENCE HIGGINS
WARREN HAYNES /
ANI DIFRANCO

To complement its unique shell composition, Session Studio Classic shells are crafted with traditional shallow depths. This allows energy from the stroke to flow freely through the drum, and creates a livelier tonality with vintage-flavored overtones.

WOOD-FIBERGLASS SERIES

VINTAGE HYBRID, MODERN PERFORMANCE.

Developed at the dawn of the 1970's, Pearl introduced Wood-Fiberglass drums as a studio solution for players looking for a louder, fatter, brighter sound. This unique synthetic-fusion shell would help put Pearl on the map, and defined the sound of an era.

Now, this classic tone returns for today's roots-conscious player. The full-bodied power of Pearl's original Wood-Fiberglass drums is back with modern craftsmanship, style, and functionality.

FW924XSP/C
#327 SATIN COCOA BURST

THE HARDWARE

Wood-Fiberglass toms include the OptiMount suspension system to remove undue shell pressure and increase sustain. Pearl's 2.3mm triple-flanged Superhoop 2 add to the attack without sacrificing tonal body.

THE SHELL

True to the legacy set by Pearl's original innovative hybrid, Wood-Fiberglass drums feature a hand-applied inner layer of Fiberglass to add focus to the

darker tonal qualities of its 7-ply Poplar/Kapur wood shell. To further sculpt the tone of these unique drums, a standard 45° edge is cut on the toms of each kit, while the bass drum features a fully-rounded edge. This and accentuates the sonic cut of Fiberglass, delivering a unique combination of warmth, projection, and focused decay.

Original shots of Wood-Fiberglass "Image Creator" kits from the 1970 Pearl Catalog.

CRYSTAL BEAT SERIES

THE ORIGINAL SEAMLESS ACRYLIC DRUM SET.

Original Crystal Beat Kit from 1973 Pearl Catalog.

In 1973, Pearl set a benchmark in the drumming world with the introduction of Crystal Beat. A stunning combination of visual appeal and powerful, sonic attack, Crystal Beat's revolutionary seamless construction was molded - not rolled - creating a strong acrylic drum system that could stand up to the rigors of touring.

#730 ULTRA CLEAR

HARDWARE

Crystal Beat's toms include the OptiMount suspension system to remove undue shell pressure and increase sustain. 1.6mm triple-flanged hoops offer just the right amount of attack without sacrificing tonal body.

SHELL

By increasing shell thickness to 7mm, Crystal Beat's modern acrylic shell is more flexible, less brittle, and deliver more body and tone than ever before. Its dual 45° bearing edge features a rounded apex, adding control, increased articulation, and punch to acrylic's lively sonic nature.

#730 ULTRA CLEAR #731 RUBY RED #732 TANGERINE GLASS #733 FROST ACRYLIC**

Not just another transparent trap kit for the hipster set, Crystal Beat's original seamless shell is back, upgraded, and fortified for today's power player.

DECADE MAPLE SERIES

A DRUM KIT 10 YEARS IN THE MAKING.

DECADE MAPLE

Practice Time is Over, It's Time to Get Serious • To elevate the playing field for today's advancing drummer, Pearl has drawn on 70 years of award-winning drum craftsmanship to create the Decade Maple series drums. As the first all Maple lacquered drum set, Decade is built to push the boundaries of performance and value, and project your drumming voice with authority.

DMP925S/C
#227 SATIN SLATE BLACK

DMP925S/C
#229 WHITE SATIN PEARL

The Kit You've Prepared Yourself for is Here • With feature-heavy drum sets that include 830 Series Hardware, a P-930 pedal, and a snare drum, Decade Maple drums are perfect as a primary kit for evolving players or a secondary "gigging" kit for the seasoned pro.

Available in six custom colours, Pearl's cultured lacquer finishing process is applied to each shell exterior to add spectacular vibrancy.

DMP925F/C
#260 SATIN BROWN BURST

THE DECADE DIFFERENCE

Decade's 6-ply/5.4mm all Maple shell sets it apart from other players in the field. The final product of ten years of process and material refinement, each cross-laminated ply incorporates Pearl's proprietary Superior Shell Technology. The resulting thin (but powerfully strong) shell reacts quickly to the stroke, producing beautifully resonant highs and thundering lows.

Pearl's three-way Opti-Loc Mounting System produces clear tone and wobble-free stability by suspending each tom at two tuning points and one of the drum's two air vents.

Decade's low-mass / low-contact shell hardware assures optimum shell performance and rock-solid durability. Features include Uni-Lock gearless tom arms, insulated die-cast claw hooks, R-40 Air Suspension Floor Tom feet, and a newly-designed mini lug.

THE MOST AMAZING DRUM MODULE THE WORLD HAS EVER KNOWN.

SERIOUSLY, IT'S THAT GOOD.

Superior sound, accurate triggering and connectivity are the most important features of a drum module. Pearl Drums and Steven Slate have joined forces to create "Mimic Pro" - the world's most advanced percussion sound source for studio and live performance applications.

At the heart of this ground breaking unit is the new Steven Slate 5 drum library that features multi-channel drum samples recorded in world class studios. Each instrument supports adjustment of Attack, Sustain, Release, Tune, Pan and volume. Instead of substituting digital effects to create ambience, these instruments use the actual ambient recordings with separate adjustment of close, overhead and room mics.

Mimic Pro is the first drum module to implement a 7" IPS touch screen and the first to offer 2 mixers for independent headphone and front house outputs. Now that the drummer is responsible for triggering loops and other sounds for a performance, Mimic Pro can import audio files to trigger from your pads.

MIMP24B

STATE OF THE ART FEATURES

- 7" IPS Touch Screen with Programmable, Dynamic Data Wheel
- 120 gig solid state drive
- 16 Dual Zone Inputs
- 16 Programmable Audio Outputs
- Midi In and Out

- Superior Burr Brown Converters
- Two completely separate mixers for headphone and Main outs. (Drummer gets a personal mix with/without effects independent of Main outputs)
- Import Wave, Aiff or MP3 sound files
- Compatible with most all pads on the market
- New Steven Slate Drums 5
- 24 bit multi channel sample library with separate adjustment of Close, Overhead and Room mics.
- Onboard effects include EQ, Compression, Reverb with Room Sizes
- Individual Cymbal Volume Adjustments for Bell, Bow, Edge, Chik and Splash
- All AUX and Cymbal inputs have choke function.
- Supports triple and dual zone cymbals and dual zone hi hat.
- SD card slot and USB.
- Additional Instruments and Libraries will be available
- Stereo Aux In and Onboard Metronome
- Internal Recording for Loops and/or Performances

Storage is no longer a problem with Mimic's 120GB Solid State Drive and lightning fast loading time. Speaking of connectivity, Mimic Pro is compatible with Pearl TruTrac pads and a host of pads from other manufacturers. Top that off with sixteen audio

outs, 16 Trigger inputs, independent SD card Slot, USB and Midi In & Out, Stereo Aux input and you would be hard pressed to find a better option for today's musician.

ePRO SERIES

THE NEW GENERATION OF REAL ELECTRONIC DRUMS.

TOMMY LEE
MÖTLEY CRÜE

EPEXL725S/C31
#31 JET BLACK WITH EP02P CYMBALS & EHH-2 HI-HAT

All of these great components couldn't reach their full potential without rich drum and percussion sounds generated from the r.e.d.box drum module (r.e.d. stands for Real Electronic Drums). The 128MB RAM capacity accommodates 1000 High Definition Sounds, 150 High Definition kits, plus space for 50 user-created kits.

r.e.d.box
Real • Electronic • Drums

HIGH DEFINITION KITS - JUST A CLICK AWAY.

One very unique and exciting capability of Pearl's r.e.d.box is the Memory Switch, which gives you the ability to flash the memory and substitute a lush, super high-end drum set for the original acoustics. Pearl has partnered with professional digital drum samplers Toontrack, Zildjian, and Steven Slate Drums, to provide the lush kits through redboxsoundshop.com.

RBM-20MUL
r.e.d.box MODULE

redboxsoundshop.com offers the ultimate variety of high resolution kits ready for download. Play along mp3s are available in all genres as well as historical Pearl kits.

MEMORY SWITCH

One of the most unique features of the r.e.d.box module is the ability to flash the memory of the module and replace the Original Acoustics with one large and lush-sounding kit. Just follow these easy steps and you'll be on your way to playing premium kits on your ePro Live from the best drum sampling software companies in the world!

1. Visit redboxsoundshop.com to preview and purchase specially designed kits from Zildjian, Toontrack, Steven Slate, and Pearl and download the free software that allows your PC or Mac to communicate with the r.e.d.box.
2. Connect your computer to the r.e.d.box with a USB cable.
3. Launch the Memory Switch communication software and move the Original Acoustics to your computer.
4. Using a Mac, drag and drop the Lush kit onto the r.e.d.box icon which loads in 20 minutes. (Separate instructions required for PC)
5. Reverse the process to replace the original acoustics.
6. Free samples of lush sounding kits and drumless play-along tracks are available at redboxsoundshop.com.

PAD & CYMBAL INPUTS
12 Dual-Zone trigger inputs for 24 unique sound sources

MIDI IN/OUT
Connects with external MIDI device

USB IN/OUT
Input for loading new sound sets from Mac or PC. Sends and receives MIDI

AUX IN
Connects to external sound source

AUX OUT
Connects to monitor system or recording device (sound assignable)

MAIN OUT
Connects to amplifier or speaker system (sound assignable)

r.e.d.box 2.0 firmware updates provide an enhanced dynamic range and sensitivity to give drummers the expression needed to appreciate the nuances of the lightest ghost notes and softest buzz rolls on stage or in the studio. Every kit has been modified to use the pitch-to-velocity function which allows samples to change in pitch when played at different velocities, creating a more realistic performance and reducing the unwanted triggering that is evident in most modules. ePro Live now supports the addition of 2 extra crash cymbals which require no additional programming when inserted to trigger inputs #10 and #11. Additional improvements have been made on the panning, EQ, and effects to provide the highest quality sonorities for recording or live performances. The fifty new kits run the gamut from Acoustic, One man Rhythm Sections and Hybrid Electronic. The r.e.d.box now has 150 kits and is the largest library available in a drum module.

ePRO POWERED BY EXPORT

ePro Powered by Export is the new generation of electronic drums from Pearl. We have combined the power of ePro live with our new Export series to give you the real look and feel that today's drummer demands. ePro powered by export is available in both Lacquer and Wrap Finishes and includes the new EHH-2 Hi Hat controller.

The r.e.d.box module features 1000 sounds and 150 programs that covers everything from Acoustic drums to Hybrid combinations. And if that wasn't enough, you can use it as an acoustic kit, electronic kit or create a hybrid combination of both that gives you endless possibilities.

HEADS

What makes the ePro Live drumset truly different than other electronic drumsets is the real feel and response from the pads. Pearl's Tru-Trac Electronic Heads feature dual-zones that reproduce all of the intricacies the drummer is used to hearing when you play an acoustic drum. The smooth coating on the heads makes moving from drum to drum fast and easy.

TRUTRAC PACK + CYMBALS

Pearl's TruTrac Electronic Drumheads are available in pre-packs and individual components so you can convert your own acoustic kit into an electronic kit. Both pre-packs include (5) No Drill Adapters and all necessary parts and tools to complete your kit's conversion from acoustic to electronic. Connect the pads to your favorite module, Hi-Hat controller and cymbals to enhance your current electronic kit, and you're good to go!

TruTrac Pack Conversion Kits are available in two configurations: 10/12/16/14/Bass and 12/13/16/14/Bass.

(Also available with brass cymbals)

EPADRBM-25S

No-Drill adapters connect through your air vent with no soldering or drilling required.

Insert the longer supplied tension rods into your existing hoops and tighten them just enough to secure the TruTrac Electronic Drumhead.

CONTENTS:	Dual Flexible RGB Led Strip Lights for each drum, connector mounts, LED Controller with wireless Remote, Multi-Position XLR Cable snake, A/C adapter

SINGLE-BAND LED DRUMSET LIGHTING SYSTEMS

DL-2	Full Starter Pack, 5 single LEDs (8-10, 10-12, 13-14, 16-18, 20-24)
NEW! DL-2T	Same pack as DL-2 plus triggers. Lights when you hit the drum.
CONTENTS:	Single Flexible RGB LED Strip lights, LED Controller with wireless Remote, Connector Mounts, Multi-Position XLR Cable Snake, A/C adapter

BASS DRUM LED DRUMSET LIGHTING SYSTEMS

DL-1	Bass Drum Starter Pack fits all sizes
NEW! DL-1T	Same pack as DL-1 plus triggers. Lights when you hit the Bass drum.
CONTENTS:	Single Flexible RGB LED Strip Light, Connector Mount, LED Controller with Wireless Remote, 10' XLR Cable, A/C Adapter

TRUTRAC HI-HAT

EHH-2
TRUTRAC HI-HAT

The TruTrac hi-hat is designed to replicate the look and feel of its acoustic counterpart. It follows a traditional approach mounting on any acoustic hi-hat stand. The TruTrac Hi-Hat uses top and bottom cymbals with full motion for a natural playing experience. When combined with the r.e.d.box sound

module, it produces sounds from open to closed, half-open and three quarter positions plus "chik" and splash. Pearl designed the TruTrac Hi-Hat to be the perfect upgrade for ePro Live and the TruTrac Pad conversion kits.

THMP-1

THRONE THUMPER

Compatible with any electronic drum set and attachable to any throne. The Throne Thumper is equally at home vibing your kit's low frequencies to you as you practice, or letting you feel the bass player's groove in a live show environment where hearing the other musicians is tough. Installation is easy and coupled with Pearl's Precision Drum Monitors, you'll hear every sonic nuance that your kit produces.

FREE FLOATING SNARE DRUMS

THE ULTIMATE PURITY OF SOUND.

SEE AND HEAR
ALL 8 FREE FLOATING SNARE DRUMS
pearldrum.com/2minute

TASK-SPECIFIC INNOVATION Just as each player has an individual voice, snare drums speak differently depending on shell type, size, weight, and application. With the latest Free Floating snare models, Pearl's engineers crafted each to fit a specific task by model. By combining the tonal character of each shell type with its ideally-matched depth - and adding different Ultra-Sound snare wires to further sculpt individual tonal personality - these Task-Specific Free Floating snares give the player a unique voice for any sonic situation.

CLICK-LOCK THROW-OFF SYSTEM Featured on all new Free Floating snare models, the Click Lock Throw-Off is engineered with Polymer bearings for precise and smooth action. The unique nylon grip mechanism locks the snares into place at the top position, and disengages quickly when released.

Free Floating snare models are tailored to bring power, clarity, and true articulation to fit nearly any playing environment - advancing the instrument even further for a new breed of players.

30 years ago, Pearl introduced the Free Floating Snare Drum. A milestone achievement in snare drum evolution, this unique system removes all hardware from the shell to greatly improve the drum's resonance and projection.

• Deep, rich snare power with short, even sustain decay.

FTAL-1480	SIZE 14" x 8"
SHELL	1.2mm Seamless Aluminum
HOOPS	MasterCast (DC-1410/DC1410S)
LUGS	FT-80
TENSION RODS	SST-5042
STRAINER	SR-160F
SNARES	SN-1442C

• Ultimate in throaty, deep snare growl. Shortened decay.

FTMH-1480	SIZE 14" x 8"
SHELL	8 ply (10mm) African Mahogany
HOOPS	MasterCast (DC-1410/DC1410S)
LUGS	FT-80
TENSION RODS	SST-5042
STRAINER	SR-160F
SNARES	SN-1442C

• Lower overtone body, preserves crisp top-end snare snap.

FTPB-1465	SIZE 14" x 6.5"
SHELL	1.2mm Phosphor Bronze
HOOPS	MasterCast (DC-1410/DC1410S)
LUGS	FT-65
TENSION RODS	SST-5042
STRAINER	SR-160F
SNARES	SN-1420C

• Full-spectrum, both bright in punch and warm in tone.

FTBR-1450	SIZE 14" x 5"
SHELL	1mm Brass
HOOPS	MasterCast (DC-1410/DC1410S)
LUGS	FT-50
TENSION RODS	SST-5042
STRAINER	SR-160F
SNARES	SN-1420I

• 1mm shell for bright, open attack with ringy overtone.

FTSS-1435	SIZE 14" x 3.5"
SHELL	1mm Stainless Steel
HOOPS	MasterCast (DC-1410/DC1410S)
LUGS	FT-35
TENSION RODS	SST-5035
STRAINER	SR-160F
SNARES	SN-1420D

• Full, rounded bottom frequencies. Extra midrange body.

FTMMH-1465	SIZE 14" x 6.5"

HYBRID EXOTIC SNARE DRUMS

SPACE-AGE PRECISION, TIMELESS TONE.

SEE AND HEAR
ALL 7 HYBRID EXOTIC SNARE DRUMS
pearldrum.com/2minute

To capture sonic perfection for true professional, Pearl's latest experiments with different material combinations have yielded new tonal frontiers in our new Hybrid Exotic Series snare drums. The purest representation of Pearl's finest craftsmanship, Hybrid Exotic shell choices include spun-composite VectorCast™, dual-step seamless Cast Aluminum, and cross-laminated Kapur and Fiberglass, for the ultimate in power and prestige.

INTRODUCING VECTORCAST™ A single tiny strand can make all the difference in the world. Beginning with a composite material filament and resin thread, Pearl's new VectorCast shell is formed around a mandrel in an X-pattern; creating a thin, high-strength shell that "flexes" with each strike. Its characteristic sound is both lively and fat, and is a vast departure from other synthetics like Acrylic or Carbon Fiber.

GLIDE-LOCK THROW-OFF SYSTEM

Pearl's SR-1000 Glide-Lock Strainer's locking throw-off lever and tension knob assures worry free, slip-free performance from all Hybrid Exotic Snare Drums. (US Patent #7220905, #7301087, #7365256.)

K-180
TUNING KEY

NEW SPIN-TIGHT™ TENSION RODS To maintain tuning tension across the batter head, all Hybrid Exotic snare drums feature Pearl's new Spin-Tight tension rods. This elegantly simple innovation creates a tension rod-within-a-tension rod, that allows the rod to expand and lock into place within the swivel nut. Utilizing a special drum key, tunings can be controlled under high-impact play like never before. (Patent Pending)

• Quick, yielding snap with heavy midrange overtones.

HEP-1450	SIZE 14" x 5"
SHELL	VectorCast
HOOPS	SuperHoop II (SH-1410B/1410S)
LUGS	STL-100
TENSION RODS	SPT-5047 (top) - SST-5047 (bottom)
STRAINER	SR-1000
SNARES	SN-1420C

• Full-Spectrum snare body with thick bottom-end tonality.

HEP-1465	SIZE 14" x 6.5"
SHELL	VectorCast
HOOPS	SuperHoop II (SH-1410B/1410S)
LUGS	STL-100
TENSION RODS	SPT-5047 (top) - SST-5047 (bottom)
STRAINER	SR-1000
SNARES	SN-1420C

• Dry, high-pitched crack with little overtone.

SENSITONE SNARE DRUMS

CLASSIC, RELIABLE SNARE POWER.

The Sensi Tone sound is a necessity. Vital, immediate snare tone that recalls the chart-topping legends of yesterday, but with a undeniably modern sensibility. Classic beaded shells in Steel, Nickel-Plated Brass, and Seamless Aluminum deliver the goods and the right gig-ready touches make them utility standards for the power player.

THROW-OFF SYSTEM: SR-150 STRAINER

The secret behind Pearl's new patent pending Click-Lock Strainer System is a "C"-shape clip that clicks onto the tension dial. This prevents the lever from disengaging, and the tension dial from loosening, even if the tension is very low. A Polymer bearing on the axle provides smooth and accurate action, and reliably quick response from the lever.
(U.S. Patent #9082376)

SENSITONE PREMIUM

Engineered for performance perfection, Sensi Tone Premium snare drums feature a choice of Patina Beaded Brass, Beaded Phosphor Bronze, or even-ply North American Maple shells. With 14" models available in 5" and 6.5" depths, the Premium line's newcomer is the new African Mahogany 15"x5" Baritone snare model, adding an additional voice to the tonal pallet.

Sensi Tone Premium's selection of refined percussion instruments truly demand a place of prestige, and are sure to be first-call drums for the stage, studio, and beyond.

Pearl's stylish Arch-Tube Lugs come standard on all Sensi Tone Premium snares. The low-contact Arch casting includes two self-aligning swivel nuts rather than a contiguous tube. This allows for pristine tuning across the head and reduced margin for binding within the lug. U.S. Patent #9502013

DEMON CHAIN TRADITIONAL FEEL & POWER OF A CHAIN

The Demon Chain pedal combines all of the innovative features of the Demon Drive pedal with all the power, speed, and traditional feel that so many players demand. The Perfect Circle cam provides a smooth consistent response throughout the entire range of the stroke for pinpoint accuracy and control. If you demand the feel of a chain drive in a high performance package, take the Demon out for a test drive.

DEMON DRIVE

UNLEASH THE DEMON

The Demon Drive is without a doubt the most thoroughly engineered bass drum pedal the World has ever seen. Lightning fast power and silky smooth finesse make this the choice of some of the most prolific drummers in the world. An amazing array of adjustable features turns this pedal into an extension of your body. From beater angle, traction plate grip, and footboard height and angle, it's all your choice. And when you feel the need for speed the Demon quickly converts to a double pedal with a simple add on pack. Unleash the Demon and find out what custom feel is all about.

P-3002D
DIRECT DRIVE DOUBLE PEDAL
(SHOWN IN LONGBOARD SETTING)

The Click-Lock prevents the tension knob from loosening no matter how hard you play. Simply flip up for adjustment.
U.S. Patent #7754953

The Demon Drive beater features a Control Core elastomer center that eliminates unwanted vibration.
U.S. Patent #7626108

The two position Direct Link adjusts for a choice of light or heavy feel. This creates the most seamless link between the player's musical ideas and their execution on a bass drum.

The most unique feature of the Demon Drive pedal is Pearl's exclusive Duo-Deck Footboard, the world's first convertible footboard. Through a simple adjustment, the footboard can be adjusted from a traditional shortboard to a longboard pedal in seconds, offering a slightly lighter, quicker feel that is the preferred setup when speed is a necessity.
U.S. Patent #7626107

The NiNJA Bearings were originally designed by skateboarding engineers. These bearings feature micro-polished steel balls for amazing speed and incredible smoothness.

NiNJA

P3002C
CHAIN DRIVE DOUBLE PEDAL (SHOWN IN SHORTBOARD SETTING)

The Z-Link Drive Shaft features Pearl's exclusive Zero Latency Universal Joints that use precision radial ball bearings and hand-assembled CNC machined frames for zero play and smoothness that allows your slave pedal to respond as quickly and precisely as your primary.

The "linear response" Perfect Circle Cam provides consistent and smooth feel throughout the entire stroke for pinpoint accuracy and superb control. The racing-inspired Cam is designed to minimize mass and maximize speed and power transfer.

The Demon Chain Pedal is driven by the ultra-lightweight Power Chain with low-friction rollers for speed, and double chain construction for power and dependability. The orange anodized link plates identify the Demon Chain as a member of the Demon family of pedals.

ELIMINATOR REDLINE PEDAL

THE KEY TO ULTIMATE BASS DRUM PERFORMANCE.

ELIMINATOR REDLINE

P-2052B
ELIMINATOR REDLINE DOUBLE PEDAL, BELT DRIVE

CHOOSE A CAM, REDLINE YOUR PERFORMANCE

Pearl's original PowerShifter Eliminator was a giant leap ahead in bass drum pedals. The world's only pedal featuring the patented Interchangeable Cam System, Eliminator's virtually unlimited tunability lets the player lock in totally personalized feel, power and speed.

The Eliminator: Redline is the next step forward. Like having four pedals in one, Redline fuses the stunning power and flexibility of the original Eliminator with the fluid speed of our Demon series pedals. With a host of radical improvements, Eliminator: Redline helps unlock perfect feel by locking in a cam, further pushing the boundaries of bass drum performance.

Eliminator Redline Series pedals come standard with Custom Carry bags.

P-2050C
ELIMINATOR REDLINE SINGLE PEDAL, CHAIN DRIVE

ELIMINATOR REDLINE

INTERCHANGEABLE CAM SYSTEM U.S. PAT. #6172291

Pearl's exclusive cam system provides a choice of 6 different colour-coded cams (4 included and 2 more optional) allowing you to quickly change the power and feel of the pedal to suit your individual playing needs. Changing from cam to cam is as simple as pushing the release button and snapping another in place.

P-2052C
ELIMINATOR REDLINE DOUBLE PEDAL, CHAIN DRIVE SHOWN WITH INCLUDED RED CAM ATTACHED

*Chain Shown with Optional Red Cam

CHAIN OR BELT DRIVE

The sprocket-less double chain drive on the Eliminator Redline (P-2050C) provides super smooth action with powerful and precise feel. The Eliminator Belt Drive model (P-2050B) provides a very comfortable, natural feel similar to a direct-drive system.

- P-2050C:** Chain Drive Single Pedal Complete
- P-2050B:** Belt Drive Single Pedal Complete
- P-2052C:** Chain Drive Double Pedal Complete
- P-2052B:** Double Pedal Complete, Belt Drive

- P-2052CL:** Chain Drive Double Pedal Complete (Left Footed)
- P-2052BL:** Belt Drive Double Complete (Left Footed)

CONVERSION KIT

The P-2051 Conversion Kit makes your existing single Eliminator into the left auxiliary pedal in a fully-functioning double pedal (right-handed only).

- P-2051C:** Chain Drive Double Pedal Conversion Kit (Right Footed)
- P-2051B:** Belt Drive Double Pedal Conversion Kit (Right Footed)

INDEPENDENT TRACTION GRIPS

Eliminator Redline's redesigned pedalboard features Pearl's exclusive reversible Traction Plate insert, allowing individual traction grip configuration to suit your exact playing requirements.

NINJA BEARINGS

Developed by skateboarding engineers for the ultimate in fast, quiet performance, NinJa Bearings incorporate state-of-the-art micro-polished steel balls for incredibly fast and smooth performance.

THE CONTROL CORE QUADBEATER

Pearl's improved, reduced profile QuadBeater provides the same four beater surfaces of the original (two hard plastic, two felt). The Control Core elastomer center's added feel and power eliminates vibration. U.S. Patent #5610351 U.S. Patent #7626108

POWERSHIFTER FUNCTION

By moving the footboard forward or back, our revolutionary PowerShifter function provides 3 positions to fine tune the power and feel of the pedal. Instantly change the drive angle leverage to create a light, regular, or strong feel. U.S. Patent #5574237

ZERO PLAY HINGE

Our proprietary stainless steel hinge provides maximum freedom of motion for blazing speed and prevents play between the footboard and heel. U.S. Patent #7179978

ROLLER HOOP CLAMP

With Side Mount Adjustment. Quickly adapts to a wide range of hoop thicknesses for the smoothest, most secure grip possible. Easy side access to the hoop clamp makes set up and tear down a breeze. U.S. Patent #5726370

CLICK-LOCK SPRING ADJUSTMENT

With NEW Rotor Tension Cradle. Locks the desired spring settings into place and prevents tension creep under play. The counter spring adjustment's rolling cradle allows the spring to pivot with each stroke for less resistance. U.S. Patent #7754953

UNI-LOCK BEATER ANGLE CAM

Grips the axel a full 360 degrees and allows infinite beater angle adjustments. Features the Floating Spring Pendulum design that is perfectly centered on the clamp for full bearing movement and maximum smoothness.

P-930 / P-920 / P-830 DRUM PEDALS

SPEED & CONTROL FOR THE MASSES.

SUPER SMOOTH, EXTREMELY FAST!

Pearl's P-930 merges many of the advanced features of our Flagship Demon Drive with our Award winning Eliminator line to create a bass drum pedal never before available in this price range.

High end performance inspired from our Demon Drive like the longboard footboard, Control Core beater and our Click-Lock spring tension keepers combine with our PowerShifter and Eliminator style cam technology that uses our Perfect Circle cam with a removable Orange Progressive Cam for fully tunable performance and lightning speed and control.

If you want fast feet and you're on a budget, step up to Pearl's P-930 - the ultimate pedal.

CONTROL CORE DUO BEATER

U.S. Patent #7626108

Our Control Core Beater utilizes our Control Core elastomer center to minimize vibration. It features 2 unique striking surfaces, a slightly rounded felt and a slightly convex hard plastic surface.

POWERSHIFTER FUNCTION

U.S. Patent #5574237

Our PowerShifter function provides 2 positions to fine tune the power and feel of the pedal. By moving the footboard forward or back, you change the chain angle, thus changing the leverage to create a light, or strong feel.

- P-930 Single Pedal Complete
- P-932 Double Pedal Complete (right footed)
- P-931 Double Pedal Conversion Kit (right footed)
- P-932L Double Pedal Complete (left footed)

2 POSITION
POWERSHIFTER FUNCTION

The Orange Progressive Cam can be removed to reveal the Perfect Circle for further tunability to match your playing style. U.S. Patent #6172291

Click-Lock spring tension maintains perfect tension gig after gig. Set it and forget it. U.S. Patent #7754953

The P-930 pedal is included as an upgrade in the 830 Series hardware pack and comes with Export and Export Lacquer drum sets.

- PosiLink Twin Cam Drive System with Interchangeable Cams (U.S. Patent #6399866)
- Traction Plate Footboard
- Reversible Spike/Rubber Feet
- PowerShifter

The H-2050 Precision Spring Tension Dial allows absolute perfect tension control for the ultimate in fine-tunable response.

INDEPENDENT TRACTION GRIPS

Like all Eliminators, the pedal has removable traction grip inserts that can be adjusted or removed to tailor the amount of grip or slip. The plate is even reversible for more choices.

HA-130

Sharing many of the key characteristics of new Eliminator Redline bass drum pedals, 2050 Series Hi-Hat Stands deliver unparalleled versatility and customization in hi-hat pedal control. The world's-only hi-hat stand featuring the Interchangeable Cam System, 2050 Series stands' customizable options are designed to eliminate resistance, reduce fatigue, and increase performance.

The RH-2050 Remote Hi-Hat's low-friction cable produces smooth, lag-free performance with the lightning-fast action of the PosiLink Twin Cam drive system. Fast, natural-feeling cymbal play is finally accessible virtually anywhere on the kit, or to facilitate multiple hi-hat system setups.

The HA-130 positions your hi-hat next to your bass pedal in double bass set-ups for super quick transitions between pedals.

SNARE STANDS

EVERY SNARE SHOULD BE SO LUCKY.

Our premiere S-1030 model offers chameleon like diversity for stage or studio. Rock solid footing with a GyroLock tilter that allows pinpoint positioning. The basket arms promote optimal resonance with the Air Suspension cradle.

S-1030 SNARE STAND GYROLOCK

Our premier S-1030 model features Pearl's 360 degree infinitely adjustable GyroLock tilter for ease-of-use and pinpoint positioning.

S-1030 SNARE BASKET

The Pearl S-1030 Snare Stand adjusts to fit virtually any size snare from 10" to 16". The Air Suspension rubber tips securely cradle your prized snares while allowing them to fully resonate.

U.S. Patent #6710236

S-930D SNARE BASKET

The S-930D Snare Stand is a shorter version of the S-930 Snare Stand, and is built to comfortably accommodate deeper snare drums.

SPIKED / RUBBER FEET

Our CVT-300/3 Push Button Spiked/Rubber Feet come in pack of 3 to retrofit on any of our 1030 Series hardware for sure-footed performance on any terrain.

U.S. Patent #7371953

S-1030

- GyroLock Tilter
- Air Suspension Rubber Tips (U.S. Patent #6710236)
- Trident Tripod
- Oversize Super Grip Rubber Feet
- Fits Snares 10"-16"
- Height Range of 470-660mm

The S-930 offers similar features but uses our legendary Uni-Lock tilter and is also available as a drop basket version.

S-930

- Uni-Lock Tilter
- Air Suspension Rubber Tips (U.S. Patent #6710236)
- Double Braced Trident Style Tripod
- Fits Snares 10"-14"
- Height Range of 450-630mm

S-930D

- Drop Basket for Deeper Snares
- Uni-Lock Tilter
- Air Suspension Rubber Tips (U.S. Patent #6710236)
- Double Braced Trident Style Tripod
- Fits Snares 10"-14"
- Height Range of 360-540mm

S-830

- Uni-Lock Tilter
- Double Braced Tripod
- Fits Snares 12"-14"
- Height Range of 430-620mm

S-150S

- Light Weight (5.18 lbs.)
- Stable Flat-Based Tripod
- Gearless Uni-Lock Basket Tilter
- Convertible Tripod or Flat-Based Legs
- Fits Snares 12"-14"

DRUM THRONES

SOUND ERGONOMICS.

Next to your drums, your throne could be your most important piece of gear.

A great throne will prevent fatigue, promote great form and posture to keep you going for those second and third encores night after night. Our thrones offer advanced ergonomic design, sturdy wide footprints for stability and a wide selection of cushion tops to provide your desired level of softness or firmness.

BOOM/STRAIGHT CYMBAL STANDS

WELCOME TO BOOM TOWN.

Pearl's BC-2030 features patent pending Nodal Point Markings on the telescopic tubes that allow cymbals to achieve better clarity and sustain when the tubes are positioned at their respective Nodal Points.

Your hardware has to work as hard you do. Sometimes it's what separates good drummers from the great. Our hardware is road-ready and street-wise. Strong, rigid and durable yet incorporating sophisticated refinements and innovations. Our BC-2030 is the most technically advanced boom stand ever devised. It's perfect for the studio musician and offers an unbelievable range of positioning for your prized cymbals.

FOR EVERY CYMBAL, THERE IS A PLACE.

Nothing takes more abuse than your cymbal stands. Constant practice, tear 'em down throw 'em in the back of your ride, load 'em in at the gig. Abuse 'em a couple of hours on stage then start all over again. Those clamps and tilters take a lot of abuse that's why Pearl is the choice of the serious working drummer. We've been advancing drum hardware since 1946 so if you're serious about drumming, get serious about your hardware.

Convertible Tripod Base

GyroLock Tilters are infinitely adjustable and provide 360 degree range of motion for precise positioning with one-step convenience.

The Trident Tripod uses a full 360° of clamping force via the hinged collar. The inner tube rests in a nylon bushing to prevent metal to metal contact. Heavy duty legs feature lateral bracing for superior ultra quiet rigidity.

WINGLOC (U.S. Patent # 6884015)
Pearl's WingLoc Quick Release Wing Nut snaps open and snaps closed for super quick removal and attachment.

REVERSIBLE SEAT CUP (U.S. Patent #6940006)
The seat cup is specially designed to "float" normally or it can be reversed and "locked" to prevent noise during recording.

830 Series stands offer lighter weight while incorporating many of the 1030 series designs. The tripod uses Trident style design with double braced legs. Large easy to use wingnuts and lateral struts for optimal stability.

The Reversible Felt / Foam Cymbal Washers allow four-way control of cymbal "ring" by mixing and matching the "hard" and "soft" surfaces of the washers.

The Clamshell designed Die Cast joint on 2030, 1030, 930 series Boom and Straight cymbal stands, provides superhuman clamping force. Set your position, lock it down and wail away.

CAJONS & ACCESSORIES

GET IN THE CAJON ZONE!

Cajons are the perfect introduction to the world of percussion. Affordable, easy to carry and just plain fun to play. Pearl offers a diverse collection of Cajons with a complete selection of accessories to customize your instrument and develop your own unique sound. Perfect for drum circles, small gigs or even studio work, your Cajon will become your new best friend.

NEW! 3D CAJON PBC-53D536

Features a CNC cut tree design on both sides. Raised snares provide a larger bass strike zone. Black and Lime Green finish.

JESUS DIAZ SIG. RADIAL EDGE CAJON PBC-509JD

In conjunction with world-renowned percussionist Jesus Diaz, Pearl has created the Radial Edge Cajon. Its high-end wood construction, fixed snares and luxurious Artisan Rosewood finish make this the ultimate cajon experience possible.

JINGLE CAJON PCJ-629

This Fiberglass cajon features built in Platinela and tambourine jingles that can be engaged for incredible sound with fixed snares.

#629 Carubinga finish

CUBE CAJON PFCC-629S

This 12.5" square Fiberglass cajon features 5 diverse playing surfaces and a built in port to boost lows. Each surface is a different thickness to vary the pitch. Stand included.

#629 Carubinga finish

SAMBAJON PCJ-SBJ

This Fiberglass cajon has two playing surfaces: a traditional hardwood front faceplate and a padded, cloth covered side that produces a Brazilian Surdo / "808" style bass tone. Perfect for use with any cajon pedal. Black Lacquer Finish

CYCLONE CAJON PCJ-647CYC

When you hit this rounded back, fiberglass beauty and the air funnels around and exits the bass port resulting in a fat, throaty bottom. The flexible wood faceplate provides a crisply articulate voice with remarkable projection.

3D CAJON PBC-53D

The 3D Cajon features 3D, CNC-cut graphics on the sides of the hardwood body. Internal snares are raised to create a larger bass strike zone. Inside the faceplate is coated with clear lacquer for a crispy snare response. Black and Natural finish

100° Ergonomic Playing Position

CENTIGRADE CAJON PCJ-650CG

This Fiberglass cajon features a front faceplate with 100° of angle for less stress on your lower back. The molded rear bass port projects a full, rich bass tone.

#650 Mango Cherry Burst

INNER CIRCLE MULTI DRUM CAJON PCJ-IC645

Sit on top for standard cajon playing, or unlatch, remove and place drum on the closed cajon and play like a conga at a seated height. Or attach the accompanying strap and you have a shoulder-slung djembe or Timbao.

2 FACE CAJON PBC-512TF

This professional wood cajon with fixed snares has a 3mm thick face for a traditional low pitch and a 5mm thick face for a distinct higher pitch.

#512 Sheer Black

BOOM BOX CAJON PCJ-633BB

This Fiberglass cajon with fixed snares features a built in bass port that magnifies subsonic frequencies for great bass projection.

#633 Artisan Red Mahogany

BOOM BOX CAJON PCJ-633BB643

This Fiberglass cajon with fixed snares features a built in bass port that magnifies subsonic frequencies for great bass projection.

#643 Burgundy Mix

WEDGE TRI-SIDE CAJON PCJ-3000B

This unique pie slice shape offers a natural seated playing position and 2 striking surfaces. Fiberglass construction with fixed snares and Artisan II finish. Ported in rear.

BRUSH BEAT CAJON PCJ-633BT

Fiberglass construction with textured surface that responds well to brushes and other effects. Ported in rear.

Black and White Finish

FUN BOX CAJON PFB-300

Help your child develop proper playing mechanics while playing this smaller kid-friendly size cajon. Durable Fiberglass construction finished in bright yellow.

CAJON BASS CASE PSC-BC1213

Cajon case that converts to a bass drum.

Heavy duty nylon construction, fixed 13" head with muffling, front bass port, and pedal connection flap.

CAJON ACCESSORIES

Enhance your performance by adding dynamic new sounds. Jingle Cups can be added to the face of any Cajon or even to acoustic guitars and other drums. The Cajon Clave and Wood Blocks attach to your cajon using the provided 3M Dual-Lock Tape or can be played handheld or stand mounted. The Cajon seat cushion adds comfort for long sessions.

AWAKENING SERIES TONGUE DRUMS

Tongue drums derive their name from the tongue shaped areas where you strike the drum. The results are a cosmic blend of tones that are as much fun to hear as play. Pearl proudly introduces the Awakening Series of 6 new Tongue Drums, three 8 note and three 9 note drums tuned to pentatonic scales. Each drum features a 10" hardened steel shell with precise laser cut tongues for accurate and consistent tuning. Pearl Tongue drums can be played with your fingers or with a set of mallets included with each drum.

PJBS-350 DJEMBASS

DJEMBASS • If you want extreme low-end, and a head-turning alternative to a standard bass drum, look no further than to Pearl's DjembBass. Convert our most popular PJF-350 Fiberglass Djembe into a compact kick drum with the DjembBass accessory pack. To reduce the attack and add greater "lows" we have included a cloth cap that stretches around the head. For greater low-end, slip the included neoprene disc inside which give you two sound options. Your pedal (not included) attaches via an I.S.S. type clamp to the Djembe's stand mounting plate.

DJEMBES • Djembes are a traditional African instrument that offer a wide variety of sounds and are perfect for drum circles. The Professional Elite Series is available in Oak (12.5" diameter) and Fiberglass (12.5" and 14" diameter). All feature our Contour Crowns for comfortable playing and authentic Goat skin heads for deep lows and crisps highs.

FOLKLORIC & BRAZILIAN

TRADITIONAL LOOK, MODERN INNOVATION.

FOLKLORIC ELITE CONGAS

Pearl's line of Folkloric congas feature a traditional look with modern innovation that only Pearl can deliver. Each 28" tall Oak conga is designed for the "seated" player, but is pre-drilled for stand mounts if necessary. Thicker South American style natural skins makes the drums warm sounding, but a fiberglass gel coat on the interior seals the shell and adds the projection and volume desired by today's players. Four Polished Steel Reinforcing Bands are inset on the shell for a smooth touch, and the traditional hoops complete these stunning instruments in a Matte Crimson Sunrise finish. The 7 & 8.5" Oak Bongos have the same hardware and shell features of the congas. The thicker bongo skins add to the projection and "dry" tone reminiscent of that classic Cuban sound.

BRAZILIAN PERCUSSION

Pearl's line of Brazilian Percussion brings modern refinements and Pearl quality to the traditional Samba musician. Our Repinique features lightweight yet sturdy steel shells with etched heads, shoulder straps and low rims for incredible playing comfort. The lightweight wood shell Surdos allow for hours of comfortable play when worn over the shoulder with the provided strap. Available in 18"x22", 20"x18" and 22"x22" sizes (diameter x depth), Pearl's popular Surdos continue to be the industry standard. The Timbao is made from lightweight fiberglass, and is capable of the extremely high tension utilized in tradition Brazilian ensembles. The Rocar is equipped with brass and steel platinellas, and can be played as a single shaker, or separated for two-handed sonic options.

CONCERT PERCUSSION

ENGINEERED FOR THE PROFESSIONAL PERCUSSIONIST.

CONCERT PERCUSSION

Pearl is proud to offer Concert Percussion instruments that are attractively priced for school ensembles, yet engineered with the professional percussionist in mind. The symphonic tambourine is a perfect example. Its 17 pairs of specially aged, stamped brass jingles provide a dry, yet bright tone that brings added colour to any musical situation. Its 10" headed

wood frame allows the player to effortlessly perform all tambourine techniques, and the tambourine's plush carrying case is included. The rattler is another vital component to any concert percussionists' equipment, and Pearl's is built with an extended handle for a comfortable grip and ease of playing. Holders for the rattler and castanets are also available.

TRAP TABLE & RACK

Our popular PTT1824 Trap Table can be easily converted into a two-level folding rack without drilling or modifications by simply adding the PTR1824 Add-On Rack. The PTR1824 installs in seconds using clamps and folds flush with the table for easy pack-up. A unique clamping system allows the included (4) straight and (4) angled 3/8" knurled posts to clamp anywhere onto horizontal or vertical areas of the rack. Also included is a retractable three-legged stabilizer bar for optimum stability. The easy-to-attach PTRUNV Universal Trap Table Rack mounts on virtually any trap table and features six 3/8" rods and receptors for various percussion mounting possibilities.

ULTRA-SOUND SNARES

Pearl's Ultra-Sound snares feature patented Graduated Tension wires for extended dynamic range from ultra soft to ultra loud. Ultra-thin, low mass end plates assure ultra quick response. The end plates feature three mounting options: tunnels or holes for cord mounting and slots for straps. *US.PAT.7202405*

OPTI-LOC

OPL-0608/C	Opti-Loc for EXX and DMP 6"-8" Diameter
OPL-1216/C	Opti-Loc for EXX and DMP 12"-16" Diameter

OPTIMOUNT

Our OptiMount Suspension System attaches to the tom's tension rods and floats on rubber cushions, providing the ultimate in stability while allowing the drum to resonate fully without restriction. With OptiMount, the mounting hardware is completely removed from the drum shell, providing a drastic improvement in resonance and sustain.

OPTA-0708/C	for drums 7"-8" deep, 6"-16" diameter, Light Weight Aluminum
OPTA-0910/C	for drums 9"-10" deep, 6"-16" diameter, Light Weight Aluminum

STAINLESS STEEL TENSION RODS

Pearl's Stainless Steel Tension Rods are machined, not forged, from a single piece of stainless steel to the most exacting tolerances in the industry. They feature super-smooth, precise tensioning, with absolutely no play. Each non-plated stainless steel tension rod is matched with a precision-machined brass swivel nut for ultra-precise performance.

SST-5028/6	W7/32 x 28mm (6)
